Quick die replacement, no tools required!

## Exchange Dies with Ease—No Tools Required

These high-precision wire ferrule crimpers feature a built-in ratchet that applies correct pressure to ensure a complete crimp every time and the safety release function allows you to stop a faulty crimp before the crimping cycle is complete. The precisely milled, hardened steel dies have individual crimping slots for specific wire terminal or ferrule gauges.

- Built-in ratchet applies correct pressure to ensure a complete crimp
- Durable steel construction and hardened dies ensure tool longevity
- Rubberized grips
- Replaceable dies sold separately

### CRIMPING TOOLS

SKU	ITEM NAME	JAW TYPE	DIN	AWG	WEIGHT
10178	Crimping Tool for Wire Ferrules 12 to 22 AWG	D	0.5, 0.75, 1.0, 1.5, 2.5, 4.0 MM2	22/20/18/16/14/12	1.2lbs
