Wire Connectors and Termination Products

- Five space efficient, color-coded sizes.
  Wire range #22-10 AWG copper only.
  Flame retardant thermoplastic shells.
  Deep, wide connector entry.
  Plated steel, square wire springs.
  U.L. Listed and CSA Certified.
  Rated 105°C (221°F).
  U.L. Standard 486C.

13⁄4" Diameter

For easy assembly of Hi-3, 4 and 6 wire connectors.

### **T&B<sup>®</sup> Electricians' Supplies** Wire Connectors and Termination Products

#### Introducing T&B Marrette® Wire Connectors

In 1914, William Marr invented the world's first pressure type wire connector. Since then, Marrette<sup>®</sup> connectors have become synonymous with "best quality wire connector". Easy to install and comfortable in the hand, they are indispensable to electricians. And now they're available as key components of Thomas & Betts' Electricians' Supplies product line. This is very good news for your fingers.

#### How good are they?

The first thing you'll notice about T&B Marrette wire connectors is that they come in a variety of types and styles, making it easy for you to identify wire size at a glance.

Feature for feature here's what makes Marrette connectors significantly better than other connectors.

• Marrette connectors are the ONLY wire connector to offer a nonwinged, variable-volume live-action spring in the connector. The spring expands to receive the conductors, rather than crushing them together, as typical non-winged competitors do.

- They can handle a broader range of wire connection combinations.
- They're coated with 100% pure copper, which reduces the corrosion common to tin and zinc-coated products.
- Marrette connectors' "finger friendly" design offers a truer grip for less hand fatigue during repeated use.
- They are the ONLY red non-winged connector that is U.L. listed for a pair of #8 awg wires.
- The high-grade polypropylene outer shell prevents "blooming" or "blossoming" of the connector sidewall. The outer shell maintains a constant moisture level, reducing the likelihood of the connector becoming dry, brittle, and subsequently cracked due to extreme heat or cold.

### **T&B**<sup>°</sup>**Electricians**<sup>°</sup>**Supplies** Wire Connectors and Termination Products

#### Marrette<sup>®</sup> Maxx<sup>™</sup> Wire Connectors

The T&B Marrette Maxx is the "one wire connector" designed to accommodate over 95% of your wire connection needs in a single wire connector. The swept back ergonomic wing design gives improved leverage for easier installation. No special tools

Marrette® Maxx<sup>™</sup> 622

needed and no pre-twisting of wires required. Whether you're installing minimum or maximum wire combinations, the T&B Marrette Maxx takes them on. "Don't be short ranged... take your wire connector needs to the Maxx!"

- Widest range single wire connector.
   U.L. Listed for combinations from #6 to 22 AWG.
   Copper coated live action spring.
- Finger friendly design makes connector easier to grip and turn. • 600 volt rating gives you added confidence of installation on all wire connections.

- Swept back wing has excellent ergonomic design.

- Accommodates 14 to 10 AWG ground wires.
   Fulfills the need to ground wires with a U.L. listed connector.
   Accepts multiple ground conductors.
   Swont back wire design efforts installer accepts.
- Swept back wing design affords installer good leverage to make ground connections.
- Swept back wing creates less box fill.

Electricians' Supplies®

Wire Connectors and Termination Products

The nylon insulating shells resist heat, cold and impact with a temperature rating of 105°C (221°F) max. Rated: 600 volt.

- Threaded brass inserts for vibration resistant connections.
- Easily removed.
  Color-coded nylon insulating
- Construction information strating shells.
   U.L. Listed and CSA Certified.

### T&B Set Screw Wire Connectors

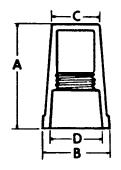

Threaded brass inserts provide vibration resistant connections that are easily removed for disconnection, visual inspection or rewiring. Thomas & Betts set screw wire connectors feature flexible, color-coded nylon insulating shells, which are compact for tight applications.

#### Marrette® Set Screw Vibration Proof/Visible Connection

The Marrette® Set Screw is a two-piece, pressure type connector, featuring a solid brass insert with a screw-on insulating cap. It's the perfect choice when changing a motor, adding a circuit, conducting instrument testing or simply lashing-up temporary wiring.

#### External Cap

- Made of rugged, phenolic material and 150°C-rated.
- Insulator cap locks securely in place to safeguard against accidental loosening in high vibration applications.

#### **Brass Insert**

• Choice of slot or Robertson Set Screw.

When tightening into the insert, provides a solid pressure type connection on all approved wire combinations.

- No need to "re-strip" wires when re-wiring. Simply loosen set screw to remove nontwisted wires.
- CSA (LR6591), UL (424H) approved for circuits up to 600V, and lighting fixtures and signs up to 1,000V.
- Convenient packaging sized right and jobsite ready!

Wire Connectors and Termination Products

#### Marrette<sup>®</sup> Black<sup>™</sup> High Temperature Wire Connectors

The Marrette<sup>®</sup> Black<sup>™</sup> connector's high temperature rating makes it the best solution for high wattage lighting fixtures and signs.

#### **External Cap**

- Made of rugged, phenolic material and 150°C-rated.
- Large, finely ribbed, "barrel-shaped" cap – makes it easier to grip even when hands are greasy or damp.
- Deep, wide throat ensures full insulation coverage.
- Threaded entry helps guide large wire bundles right into the spring.

#### Inner spring

 Internal round spring design multiplies the "twist-on" torque applied by the leverage and wedge action, to firmly crush wires into a solid joint.

- Model #37 Black<sup>™</sup> uses a square wire expansion spring for additional gripping power on large conductor combinations.
- Unique copper-coated spring helps resist corrosion.
- CSA (LR6591), UL (424H)

   Model nos. 29 & 30 Black<sup>™</sup> are approved for circuit and fixture type connections up to 300V <u>only</u>.
  - Model nos. 31, 33, 35 & 37 Black<sup>™</sup> are approved for circuits up to 600V, and lighting fixtures and signs up to 1,000V.
- Convenient packaging sized right and job-site ready!

### **T&B**<sup>®</sup> **Electricians' Supplies** Wire Installation and Wire Pulling Products

### Ultralite Fishing Rod System

- Best combination of rigidity, flexibility and strength available in any fish tape
- Easily negotiates multiple bends, even in flexible conduit
- All non-metallic construction with high dielectric properties—reduces personal hazards around hot circuits
- Tighter bending radius than conventional fish tapes; only ¼ the pulling effort
- Field repairable if broken

**Caution:** First time users of Ultralite Rod should thoroughly review instructions provided with each unit to insure satisfaction and best performance. Ultralite is different from any other conduit fishing tool and may require retraining.

### **T&B**<sup>°</sup> **Electricians**<sup>°</sup> **Supplies** Wire Installation and Wire Pulling Products

#### Fishing Rod System Accessories and Replacement Parts

Threaded red ends make it easy to attach a variety of leaders and pulling attachments to handle specific fishing applications. Accessories simply screw on and off for great versatility.

#### **Fishing Leaders**

Spring balls in assorted sizes easily attach to UltraLite threaded rod ends to nudge past obstacles in occupied ducts.

#### **Pulling Attachments**

Choose the size and style you need to complete fishing jobs in record time.

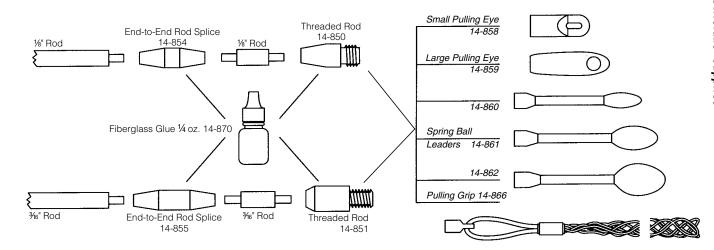

Small and large pulling eyes accommodate a wide range of wire bundles. Pulling grip attaches easily to wire bundles without the usual timeconsuming wrapping. Grips the bundle tightly throughout the pull.

#### **Repair Parts**

End-to-End splice lets you join two UltraLite rods for repair or to extend length. Both threaded rod ends and splice attach securely with special Fiberglass glue for easy field repairs.

Wire Installation and Wire Pulling Products

- Extra flexible monofilament nylon.
  Non-Conductive material for work near live circuits.
- Spring steel leader with ball included.
  Also available in 12" diameter high-impact
- plastic reel with winder.

- Extra flexible steel construction.
- Solid steel core spiral wrapped with steel wire.
- Spring action, excellent tensile strength.
- Ball on both ends of coils.
  Also available in high-impact plastic reel with winder.

### **T&B**<sup>°</sup> Electricians' Supplies Wire Installation and Wire Pulling Products

#### Wire Pulling Lubricants

T&B offers a choice of wire and cable pulling lubricants. The popular standard base, cold weather and advanced engineered polymer base lubricants are available. Each features superior stability, adherence, and cable compatibility as well as excellent lubricating properties.

- Preferred semi-synthetic base formulation.
   Retains lubricating properties and will not separate up to 200°F.
   Will experte the formulation for the formulation.
- Will not separate after freezing.
  Superior adherence to cable.
- Recommended for use on all commonly used wire and cable including high voltage cable and all U.L. listed conduits.
- Dries to slick, waxy film.
- Non-toxic, no silicones, non-staining, easy clean up.

#### Wire Pulling Lubricant – Semi-Synthetic Base Cat. Std. No. Description Ctn. 12 15-230 1 Quart 15-231 1 Gallon 4 5 Gallon 15-232 15-233 55 Gallon 15-235 Fast Draw 14 oz. aerosol can 12 15-236 Squeeze Bottle, one quart 12

Suitable for use with wire or cable insulated with rubber (R, RH, etc.), Neoprene, nylon and PVC plastics (T,TW, THW THHN, etc.), Hypalon\*, high density polyethylene and Cross Linked Polyethlene (XLP). Not recommended for use on asbestos or low density polyethylene insulated cables. Compatible with semiconducting jackets present on high voltage cable. Meets the requirements of ICEA Standards:

ICEA #S-61-402/NEMA Pub. #WC5

- ICEA #S-66-524/NEMA Pub. #WC7.
- U.L. File E-43782

### **T&B**<sup>°</sup>**Electricians**<sup>°</sup>**Supplies** Wire Installation and Wire Pulling Products

#### WireSlick<sup>™</sup> Wire and Cable Pulling Lubricant\*

WireSlick wire and cable pulling lubricant represents the latest in polymer technology. An economical formulation, WireSlick lubricant polymer base provides extremely good thermal stability and a lower freezing point (20° F) than clay, soap or wax base formulations.

WireSlick is recommended for use with wire or cable insulated with rubber (R,

RH, etc.), Neoprene; nylon and PVC plastics (T, TW, THW, THHN, etc.); Hypalon\*; High Density Polyethylene and Cross Linked Polyethylene (XLP). It is also compatible with high voltage cable having semi-conducting jackets.

WireSlick has been tested and passes the requirements of ICEA Standards: ICEA #S-61-402/NEMA Pub. #WC5.

ICEA #S-66-524/NEMA Pub. #WC7.

Universally compatible with all types of wire

• Widely used by power and telephone utilities.

• Polymer base formulation.

• Economical lubricant.

and cable.

#### **Conduit Benders**

T&B Conduit Benders include manual Benders and Hickeys for easy and accurate bending of d" to 1b" EMT, and d" to 1" rigid and IMC conduit.

T&B offers you a choice. From the unparalleled durability of our Ductile-Iron Benders, to economical Aluminum-Alloy Benders. High-Strength, case hardened handles are also available for a bending system designed to last a lifetime.

- Durable construction
- Embossed benchmark symbols and degree scales "Raised Indeces"
- Flat backed hook
- Offset bending guide included on each handle
- 40% stronger than malleable iron
- Traditional design with increased strength

- Guaranteed against breakage for life.
- Extended foot pedal.

• Hinged foot pedal 18-706 only.

## T&B Electricians' Supplies

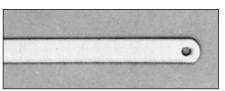

**Tools and Wire Stripping Products** 

#### Electrician's Hand Tools – Hack Saws

High tension frame provides faster, simpler cutting. Easy to use tension knob will tighten to 28,000 PSI to prevent twisting and binding of the blade. Hack saw frames are made of cast aluminum with an extra thick tubular steel bar for added strength. Blades can be conveniently stored in the tube. Saws can cut both straight and 45 degree angles and a set screw in the tube allows the blade to be used as a "jab saw" in tight places.

WARNING: Should yellow insulation become visible through the blue outer layer, remove the tool from service immediately. T&B insulated tools offer secondary protection and are not meant to be used in place of the user's personal protective equipment.

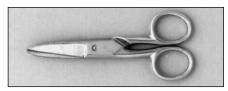

**Tools and Wire Stripping Products** 

- Comfortable cushion grip handle that is small enough for working in obstructed areas.
   Constructed of hardened and tempered steel for
- strength and durability.
  Convenient precision ground tip can be resharpened.

- Cutting edges constructed of heat treated steel offer extra durability. • Blades are serrated to better grip metal. • Powerful enough to cut 18 gauge cold-rolled
- steel.

- Constructed of top-grade steel.
  Contain nickel plated, ground hardened power lock screws to assure reliable performance.

- Convenient one piece aluminum construction. • Three highly visible permanently lined vials: level, 45 degree and plumb.
- Magnetic base bonds level to iron and steel surfaces.

- Designed with industrial grade housing .
- Three reversible blades make the tool handy
- for multiple jobs. Positive locking system insures safety. Made in the U.S.A.

### Electrician's Hand Tools – Pliers & Wrenches

T&B pliers have a full polish finish and are drop forged from high quality American made 1055 steel. Manufactured to meet or exceed U.S. Government specifications, most have induction hardened or hand honed cutting edges. They are designed to work easier in confined areas, and all are constructed to prevent slipping when pulling, gripping and twisting. Quality forged alloy steel gives wrenches maximum strength and durability. Steel jaws allow for accuracy and metallic plating resists corrosion. Designed with thumb reliefs and tension springs to allow easier adjustment and improved control. Equipped with textured grips, contoured for comfort and control.

#### Electrician's Hand Tools – Crimpers & Rippers

T&B offers a wide variety of specialty tools used most commonly by electricians. Whether the job is new construction or circuit maintenance, T&B Wire Strippers, Cable Rippers, Conduit Benders, and other special purpose tools are convenient and easy to use.

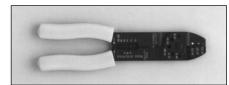

All T&B tools are designed for the professional. Single purpose and combination function designs are included. All products are manufactured from top quality materials to assure durability and a long useable life.

- No need to determine wire size, stripper adjusts automatically.
  Grips wire and strips with one squeeze of the
- handles.
- Strips and cuts #18-10 solid or stranded.
  Wire is never nicked or cut because blade never
- touches it.
- For production stripping applications.
  Adjustable strip length gauge included.

- Small, convenient size.
- Adjustable strip gauge can be preset for repetitive stripping on same wire size.
   Strips wire sizes # 18-10 AWG.
- Available with or without handle spring.

- Crimps bare and insulated terminals #22-10 AWG.
- Sizes threads and cuts bolts 4-40, 6-32, 8-32, 10-32. 10-24.
- Cuts and strips wire #10-22 AWG.

**Tools and Wire Stripping Products** 

Slits outer jacket from Romex and other non-metallic (NM) sheathed cable.

Model 18-223

- Made from cast aluminum; has replaceable blades.
- For 2 or 3 wire #14, 12, 10 with or without ground.

#### Model 18-225

- Cable is laid in from side; no threading through end.
- Also sizes and strips wire #16-8 AWG.

18-850	-
18-800

\*Without Spring

\*\* With Spring

- Sizes, strips, and cuts wire #16-6 solid, #18-8 stranded.
  Sizes threads and cuts bolts, 4-40, 6-32, 8-32, 10-32, 10-24.
  Crimps bare and insulated terminals #22-10 AWG.

- Conduit reaming nose, wire looping holes.
- Adjustable hinge bolt assures stripping blade alignment.
  ½" cutting blade is hardened to hold the edge.
  Made of premium tool steel.

- Sizes, strips, and cuts wire #16-6 solid, #18-8 stranded.

- Model 18-850S has anchored handle spring for easy handle operation;
- spring stays put. Model 18-850, without spring, stays closed in pouch; curved, cushioned handles allow easy comfortable operation.
- Conduit reaming nose, wire looping holes.
  Adjustable hinge bolt assures stripping blade alignment.
  1/2" cutting blade is hardened to hold the edge.
- Made of premium tool steel.

Hardware and Rough-In Products

#### • For fastening to sheet metal up to .040\*

(25 gauge). • Eliminates pre-drilled holes. • ¼" Hex Washer head, slotted; fits 54-090 Magnetic Driver.

- Drill their own hole and form mating threads.
  #8 screws fasten combined material thickness
- #8 Screws fasten combined material mick up to %".
  #10 screws fasten combined material thickness up to %".
  Hex Washer Head (no slot).
  %" hex head fits 54-090 Magnetic Driver.
  %" hex head fits 54-091 Magnetic Driver.

- For driving self-piercing and self-drilling hex head screws.
- Fits power screwdriver and electric drill
- chucks. Strong permanent magnet holds screw in position.

Γ.

Hardware and Rough-In Products

For fastening to wood or sheet metal.
Best screw for use with plastic screw anchors.
Large "Pan-Head" eliminates need for a washer in many applications.
Zing olated stoel

Zinc plated steel.

54-166	12 x <b>2</b> "	500

• Indented hex washer slotted type head.

• One ¼" hex driver accommodates all sizes.

• Sharp tapered point.

Drive fastener locks onto the square drive bit.
Used in difficult to apply locations.
Used in mobile home and aluminum building

products.

#### **Electrical Contact Cleaner**

Cat. No.	Description	Std. Ctn.				
15-DCCNF	Helps protect electrical and electronic equipment	12				
A combination of cleaning solvents that are designed to remove oxidation, carbon, grease, oil, dirt and corrosion deposits on electrical and electronic equipment. Cleans and penetrates surface pores leaving a clean, dry surface. Eliminates noise caused by dirt and dust.						
Volume: 15 oz.	Residue: None					
Evaporation Rate: Fast	Flash Point: None					

Odor: Ethereal

Warning: Avoid breathing vapor or spray mist. Over exposure can cause drowsiness, nausea, or unconsciouses. Do not spray in eyes or mouth. Avoid contact with skin, eyes and clothing. May attack some types of plastics or rubber. Pretest on small area before using.

Red Insulating Varnish					
Cat. No.	Description	Std. Ctn.			
15-500-HO	Protective coating for electrical and electronic equipment	12			

An excellent, fast drying protective coating for electrical and electronic equipment. It dries to a hard, durable, flexible film that is resistant to abrasion, acids, oils, alkalies, moisture and dirt. High dielectric strength and arc-resistance, does not change electrical characteristics. For use on armature coils, boxes, cables, connectors, controls, motor windings, commutator ends, switchboard parts, and bus bars. Can be used as a primer or as a finish coat. Environmentally safe propellant.

Volume: 13.5 oz.

Heat resistance: short term to 300°F

Warning: For use on metals only. May be harmful to some plastics, rubbers, and paints. Protect from overspray. Contains toluene, methylene chloride, and ketones.

#### Penetrating Oil

Cat.		Std.
No.	Description	Ctn.
15-301TB	Penetrating oil	12
Quickly cuts through dirt a	nd scale to displace moisture and release corr	oded or rusted parts. Fi

freeing fasteners, nuts, bolts, studs, pins, valves, pipe couplings, machine parts, etc. saving time and labor. Excellent for salt water corrosion and leaves an anti-rust film. Safe for use on metals, alloys, rubber and most painted surfaces.

Environmentally safe propellant.	Specific (
Volume: 13 oz.	% Non-V
Density: 7.10 lbs. gal.	Boiling P
Flash Point: 140°F	Vapor Pre
Kauri Butanol Value: 32-35	Propellar

Gravity (H2O =1: 0.850 Volatile: 22% Point Range: 350°-500°F ressure: 1.0mm (Hg) nt: Propane

Note: Data given is for liquid portion of package, does not include propellant. Keep away from heat, sparks, and flame. Warning:

RTV Silicone Adhesive/Sealant			
Cat. No.	Color	Description	Std. Ctn.
15-RTS	Clear	A single component room temperature vulcanized silicone rubber	12
15-RTSW	White	A single component room temperature vulcanized silicone rubber	12

Use RTV for sealing, bonding, caulking, insulating and weatherproofing. When applied it reacts with moisture in the air and cures to a rubber-like product. RTV will adhere to clean metal, glass, most types of wood, silicone resin, vulcanized silicone rubber, ceramic, natural and synthetic fiber as well as many painted and plastic surfaces. Volume: 7.25 oz.

Curing Time: A 1/16" to 1/8" bead dries in 1 hour, cures in 24 hours, and reaches optimal strength in 7 days.

Flash Point: 212°F Odor: slightly medicinal

Spray Galvanizer		
Cat. No.	Description	Std. Ctn.
15-501	Protects bare metal and previously galvanized surfaces	12

For protection of both bare metal and previously galvanized surfaces. 95% pure zinc, electrochemically protects metals and prevents rust and corrosion. Useful touch-up for all marred and or scratched hot-dip galvanized surfaces such as electrical equipment, boats, agricultural/mining/construction equipment, storage tanks and pipelines. Dries to tough hard coat. Continues protection even if scratched. May be painted or left as a final protective coating.

Environmentally safe propellant.

Volume: 13 oz.

Binder: Epoxy Ester

Drying Time: Touch 10-15 minutes Warning: For use on metals only. May be harmful to some plastics, rubbers, paints. Protect from overspray. Contains Xylene.

## **T&B**<sup>®</sup> **Electricians' Supplies** Chemical Products

## **Cutting and Tapping Oil**

Cat. No.	Description	Std. Ctn.
15-303TB	Lubricant and coolant for cutting tools	12

Lubricates and cools cutting tools when drilling, tapping, threading, reaming, boring, and broaching. Out performs average cutting oils on all machine tools such as turret lathes, automatic screw machines, gear cutters, etc. and is easily applied during machining with uniform coverage. Prolongs tool and cutting edge life eliminating scoring and clattermarks. It can also be used as an all-purpose lubricant, excellent for many uses on the job or in the shop. Also available in one quart and one gallon non-aerosol containers under the CTO™ label. Environmentally safe propellant. Volume: 14 oz.

Product is a petroleum oil fortified with additives to provide lubricity, heat transfer, oxidation resistance and corrosion inhibition.

Warning: May be harmful to some plastics, rubbers, or painted surfaces.

Silicone Lubricant		
Cat. No.	Description	Std. Ctn.
15-302	Multi-use lubricant and cleaner	12
Resists oxidation ar	one multi-use lubricant and cleaner that prevents sticking and nd corrosion. It is a high temperature lubricant and cleaner rel fer and anti-static agent. It is non-staining and good for water	atively stable from -40°F to 500°F.

Excellent heat transfer and anti-static agent. It is non-staining and good for waterproofing and protecting canvas, leather, wood and sliding surfaces.

Environmentally sa	fe propellant.	Appearance:	Clear
Volume:	16 oz.	Odor:	Mild
Flash Point:	120°F	Warning:	Keep away from heat, sparks, and flame.

#### **Chemical Products**

Proven formulations with wide acceptance.
The most popular lubricants, cleaners and coatings used every day for electrical maintenance.

#### **Moisture Displacing Lubricant**

Cat. No.	Description	Std. Ctn.
15-300	Moisture displacing lubricant	12

Can prevent up to 80% of all electrical failures caused by moisture in switches, relays, motor controls, electrical or electronic equipment. It inhibits corrosion, lubricates and penetrates, inhibits leakage and arching, restores surface resistance and dielectric values. Reduces potential of electrical and electronic failures due to high humidity and salt air. Protects shelf items from corrosive attack during storage. Lubricates without leaving gummy residue.

Volume: 12 oz. Density: 6.66 lbs. gall. Flash Point: 105°F min. Coverage: 4,000-5,000 sq. ft./gallon Kauri Butanol Value: 35-36 Specific Gravity (H2O =1: .800

% Non-Volatile: 18% Viscosity: 25-30 @ 72°F Boiling Point Range: 300°-390°F Vapor Pressure: 2.0mm (Hg) Propellant: Propane

Note: Data shown is for liquid portion. does not include propellant.

Contains petroleum distillates. As with other petroleum distillates these may cause rubber to swell. Keep Warning: away from heat, sparks and flame.

#### "No Flash" Electrical Cleaner Cat. Std. Description No. Ctn. 15-EEC-NF No-flash quick drying electrical 12 equipment cleaner Can be used as a electrical motor, contact, and cable cleaner. Volume: 16 oz. Evaporation Rate: Fast Odor: Autoignition Temperature: 770°F Strong Chlorinated Solvent Flash Point: Yes None Dielectric Strenath: 30KV

12

Volume:	16 oz.	Dielectric Strength:	26.5KV (ASTM D-877)
Flash Point:	None	EPA Reg. No.: 36994-5	55359
Fire Point:	None		

Warning: Hazards to humans and domestic animals: Avoid contact with eyes or clothing. Wash thoroughly after handling. Harmful if swallowed. Physical and chemical hazards: Contents under pressure. DO NOT puncture. DO NOT use or store near open flame. Exposure to temperatures above 130°F may cause bursting. Storage: Keep in locked storage area.

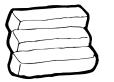

**Chemical Products** 

- Seals around junction boxes, flashings, service mast entries, service cable entries and countless other applications.
  Easy to use, forms around irregular surfaces and configurations.
  Highly resistant to cracking, drying and shrinking.
  Cuts and trims easily.

- Can be painted immediately after application. • Gray color.

Electricians' Supplies®

- No unpleasant odor.
  +20°F to 212°F workable temperature range.
  -40°F to 250°F service temperature range.

• Contains no asbestos.

- For removing oxides from conductor surfaces.
  Easy grip handle with glove guard to prevent rubber glove puncture.
- Long life brushes can be rotated and are replaceable.
- Handle and guard coated with durable nonconductive plastic.

Wire Testing Equipment

19-806

19-660C

#### 19-806 Voltage Tester

- T&B model 19-806 features include:
- Dual voltage indication: Solenoid vibration sensing and electronic neon visual indication.
- Positive AC/DC voltage identification: 120, 240, 480, 600 VAC 60/50 Hz; 120, 240, 600 VDC.
- Positive or negative DC pole identified by neon lamp.
- Replaceable leads.
- Retractable and locking, spring

loaded shrouds protecting metal probes.

- Durable metal probes capable of piercing insulation covered conductors.
- Self-extinguishing, high impact sealed case and prod assemblies preventing dirt, dust and small objects from entering the tester.
- Case serves as prod holder for onehanded operator.

#### 19-660C Audible Voltage Continuity Tester

T&B model 19-660C is designed for the everyday needs of the professional electrician and are made in USA. This solenoid-type tester model features include:

- Three voltage indications: Solenoid vibration sensing, electronic neon visual indication, and audible buzzer.
- Positive AC/DC voltage identification: 6 to 600 volts 60/50 Hz.
- Automatic testing for continuity through 300K ohms.
- Electronic buzzer indication for AC/DC voltage and continuity.
- Positive or negative DC pole identifies by neon lamp.

- Replaceable leads.
- Retractable and locking, spring loaded shrouds protecting metal probes.
- Durable metal probes capable of piercing insulation covered conductors.
- Self-extinguishing, high impact sealed case and prod assemblies preventing dirt, dust and small objects from entering the tester.
- Includes A76 batteries.
- Case serves as prod holder for onehanded operator.

Wire Testing Equipment

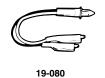

- Heavy chrome plated, all brass casing.
- Also acts as convenient size flashlight.

For use only on de-energized circuits.
Requires two AA batteries (not included).

- Conveniently tests receptacles for proper wiring including polarity and presence of safety ground wire.
   Easy to read indication legend.

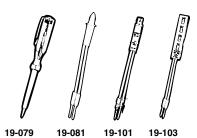

- Pocket size.
  U.L. Listed, CSA Certified.
- Label gives interpretations of all readings.

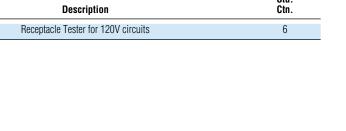

19-102

- 12 to 60 volts.
  Long Life bulb in clear plastic handle.

- 90 to 250 volts AC/DC.
- Convenient pocket clip on 19-079, 19-081 and 19-101.
- 19-103 features 4 separate bulbs for 110, 220, 277, 440. 80-600 volts AC/DC.

## Time-saving features ... Thomas & Betts quality!

Terminals. Cable ties. Cable trays. Tools. And thousands of other electrical wire and conduit

termination/management products. All designed to save installation time. And all available from the company behind the industry's most trusted brands-Thomas & Betts.

Kindorf channel- Modular, corrosion resistant metal framing is a snap to install.

Whether you're stocking a crib program or using advanced JIT procurement, specifying Thomas & Betts products can help you reduce inventory and handling costs now, and help you save installation time.

For more information on the broadest line and the best brands T&B Cable Tray - Steel and in the industry, see

vour Thomas & Betts distributor or raceway management. call 1-888-862-3289.
