Reviews

- Solid copper sleeve require less crimping pressure and resist corrosion in harsh environments
- UL 486C Listed and CSA22.2 #188 Certified; comply with Federal Specification W-S-61D

Crimp connectors from IDEAL are designed for making fast, permanent, pressure-type connections. Whether there is a connection in a high vibration environment or installations at an OEM, there is a solution available. The steel and copper crimp connectors cover a wide range of combinations and have available insulating caps to protect against dangerous electrical shock.
