

LF-399D

Digital Soldering Station 80W

The Xytronic LF-399D is a Temperature-Controlled Digital Soldering Station with a permanently attached mains cable and 80W soldering iron.

Input	220 to 240V AC, 50Hz
Output power	80W
Fuse	1A fast-blow
Temperature range	150 to 480°C (302 to 896°F)
Temperature correction range	+99 ~ -99°C (+210 ~ -210°F)
Temperature stability	±5°C (9°F)
Default setting	150°C (302°F)
Dimensions (Power supply)	105 x 90 x 90mm (W x H x D)
