For best quality reproduction when connecting a PC to a monitor we stock a high grade plug to plug coax cable in differing lengths. We also list a useful loaded VGA single faceplate; ideal for connection to a standard size wall box.

Features:

- Male to male assemblies using UL 2919 cable with 3 x 75 ohm coax cores & 4 twisted pairs
- Provides high quality monitor link for best possible screen image reproduction
- Fully moulded design with fitted thumbscrews for secure attachment
- Comprehensive range of lengths from 0.5m to 25m
- Suitable for most monitor extension requirements
- Non moulded, custom lengths available upon request
