Application Notes

Description

The 3500 Series consists of a single pole, single throw sw itch activated by a snap action bimetal disc. Temperature calibrations are pre-set at the factory, and each unit is 100% thermally and mechanically inspected. It is available to open or close on temperature rise. The case is laser welded to form a hermetically sealed steel housing, w ith a glass-to-metal seal at the terminal junction. It meets or exceeds the requirements of MIL-S- 24236 and is designed specifically for military and commercial aircraft applications. It is not QPL listed (see 3MS1).

Features

Features

- Hermetically sealed
- Tight tolerances
- Tight differentials
- Hi-Rel

Potential Applications

Potential Applications

- Military and commercial aircraft
