Description Resources Tags Reviews

The Calrad 40-1063-HS-2, Accepts Ultra HD 4Kx2K HDMI video sources and splits the signal to two Ultra HD displays simultaneously, without loss of quality or resolution. Works with all compatible 4Kx2K HDMI baluns. Not only does it come in a Metal case but it has two L.E.D. signal indicators illuminate when HDMI signal connectivity is working on each output. Now with selectable EDID settings you can view your source instantly without hand-shaking delays.

Calrad Electronics has been in the same family ownership for over 60 years. Many of our employees have been with the firm for 25 or more years. Many of our customers have been buying from Calrad for even longer than that. Our manufacturers and suppliers in Asia have known and trusted Calrad for generations. It all started in the 1950's . . .
