

Klein's new Telescoping LED Pick-up Tool allows you to retrieve any steel tool or part – the ones that always seem to fall out of reach. The telescoping arm extends for almost two feet and the goose-neck end allows you to reach around into the tough areas. When you're in low light conditions, the LED provides light to guide you to your tool and back. The Telescoping Magnetic LED Pick-up allows you to reclaim your dropped tools, making this a must for your tool bag.

Specifications
