

# Powerpole® Connectors - PP180: up to 350 Amps

PP180 are the largest of the Powerpole® series housings. They are designed to accommodate up to 3/0 (70 mm<sup>2</sup>) wires and handle high currents up to 350 amps. Busbar contacts are also available for power inputs and takeoffs. Color-coded housings minimize user confusion and the potential of cross mating circuits.

### Low Resistance Silver Plated Copper Contacts

- Allows currents up to 350 amps

### UL Rated for Hot Plugging up to 75 Amps

- Great for battery or other applications where the ability to interrupt circuits is required

### Busbar Contacts Work with Standard Housings

- Provides a hot swappable quick disconnect system for busbar power distribution
