

Precision tweezers - Teflon coated Tweezers

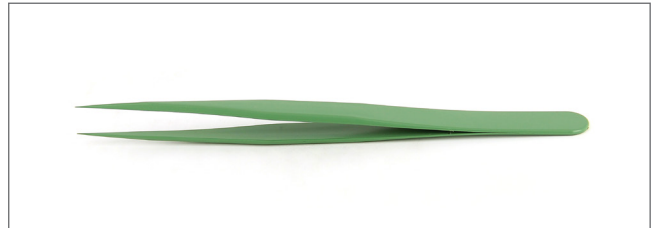

Teflon coating reduces the rate of heat during critical cryo work and reduces the corrosive action of acids and bases on tweezers tips. Teflon coated tweezers are recommended when specimen material is fragile.

Anti-Acid/Anti-Magnetic SS (SA) - TEFLON COATING (T)

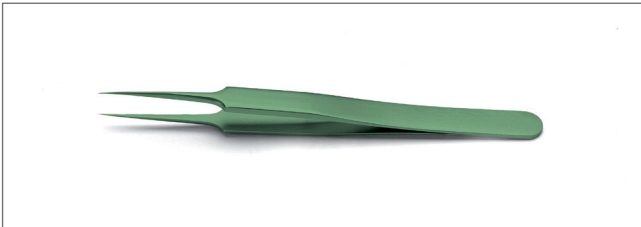

2AB.SA.T

Tips: flat, round, curved. OAL: 120mm

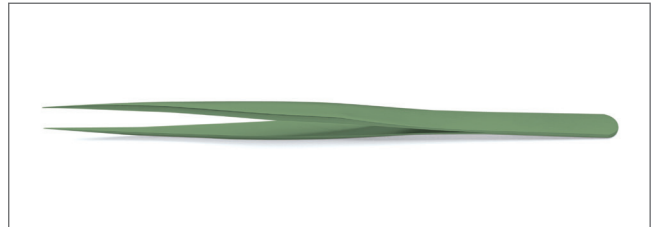

3.SA.T

Tips: straight, very sharp, fine. OAL: 120mm

5.SA.T

Tips: straight, fine, sharp. OAL: 110mm

SS.SA.T

Tips: straight, extra fine, very sharp. OAL: 140mm
