

## XDK-1033/I-2

Item number 66.9561-\*

With all-round insulation. The upper jaw is non-conductive to prevent accidental short-circuits on contact with the mouth open. This development of our established dolphin clip features a soft TPE inlay in the top jaw, facilitating an especially strong adhesion grip.

The insulation in this version also allows it to be used in the measurement category CAT IV.

| Technical data                       |                            |
|--------------------------------------|----------------------------|
| Diameter of plug system              | 4 mm                       |
| Rated Values                         | 1000 V, CAT III, 19 A      |
| Surface treatment electrical contact | Ni                         |
| Base material electrical contact     | CuZn                       |
