# STRIPPERS

Pro'sKit® Strippers

All *Pro'sKit*® precision strippers pass strict quality control using precision instruments and ensuring accurate stripping with much less effort against injury and long service life. *Pro'sKit*® offers a complete range of strippers, including precision wire strippers, automatic wire strippers, coaxial cable strippers, round cable slitting & ringing tools, for most applications, such as electrical wire, hook-up wire, multi-conductor cable, flat telephone cable, twisted pair round cables, coaxial cables, fiber optics cables...etc.

Gripping

Mainly used in holding, pulling and bending wires.
Cutting wires

With cutting edge for soft wires from Ø0.25 to Ø1.2mm(AWG 30 to 16), not for hard or thick objects.

Wire spring

Stripping wires

Pro'sKit® precision strippers are processed by CNC machine to guarantee the accurate size of notches for accurate stripping without damage.

Pro'sKit® end-action wire stripper comes with V type design and screw adjustment to preset wire size up to 3.9mm/0.15".

Pro'sKit® automatic wire stripper requires much less effort to strip wires quickly. The notch size could be custom made upon special request.

The spring design is very important! It allows handles to self-open to make work faster with much less effort.

2 blade stripping coaxial cables

2 blade coaxial cable stripper usually used in stripping braided shields coaxial cables

3 blade stripping coaxial cables

3 blade coaxial cable stripper usually used for stripping foil/braided shields coaxial cables

Pro'sKit® coaxial cable strippers and twisted pair round cable strippers are designed with lever action that requires much less force for operating as effectively as possible. Blades made from special grade steel provide sharp and durable edges. Some of Pro'sKit strippers come with adjustable wire size function to preset wire size to meet applications requirement.

Cutting wires

Coaxial & twisted pair round cable strippers With cutting edge for cutting soft wires from Ø0.25 to Ø1.0mm(AWG 30 to 18), not for hard or thick objects.

Stripping flat telephone cables

For stripping flat telephone cables
Stripping wires

For stripping electrical wires

Stripping twisted pair round cables

For stripping twisted pair round cables.
