

The soft shell boots provide water, dirt, chemical and UV protection for SB® connectors. The durable boots shield the connectors from water and dirt to IP64 when mated or unmated when the integral cover is used.

SB® Environmental Boots are ideal for a wide range of applications including: generators, industrial trucks, bus and coach, road construction, road maintenance, off road, farm and agriculture equipment.

Tooling

APP® crimp tooling is required for UL & CSA connector compliance. Using unapproved crimp tools will void the connector's warranty. For crimp tool information, see the Powerpole/Multipole catalog or visit www.andersonpower.com

Mounting

Environmental boots can be mounted using such items as a hose clamp, hanger strap and cable tie, which are readily available at industrial supply companies, hardware store and/or automotive parts stores. Mounting methods should be thoroughly evaluated for the end use application.
