

AMERICAN BRIGHT OPTOELECTRONICS CORP.

AB-T10 series

Low Wattage T-10 LED Bulb Replacement

Features

- Designed as a direct replacement for traditional T10 incandescent auto bulbs
- High efficiency multi-chip LEDs on reliable sapphire substate
- Constant current regulator with built-in bias voltage rectification circuit.
- Excellent thermal and light output performance
- The waterproof and refractory glass housing

Application

- Fit Size: 194 / 168 / W5W / 2825 / 2827 / 12961 / 147 / 152 / 158 / 159 / 161 / 175 / 184 / 192 / 259 / 280 / 285 / 447 / 464 / 501 / 555 / 558 / 585 / 655 / 657 / 1250 / 1251 / 1252 / 2450 / 2652.
- Position: License Plate Light / Interior Door Light / Parking Light / Side Marker Light / Trunk Cargo Light / Dome Light / Courtesy Light / Map Light / Glove Box Light.
- Non-Polarity: These bulbs will fit into the same socket as your OEM original bulbs. No need any modification, just for plug & play installation.
