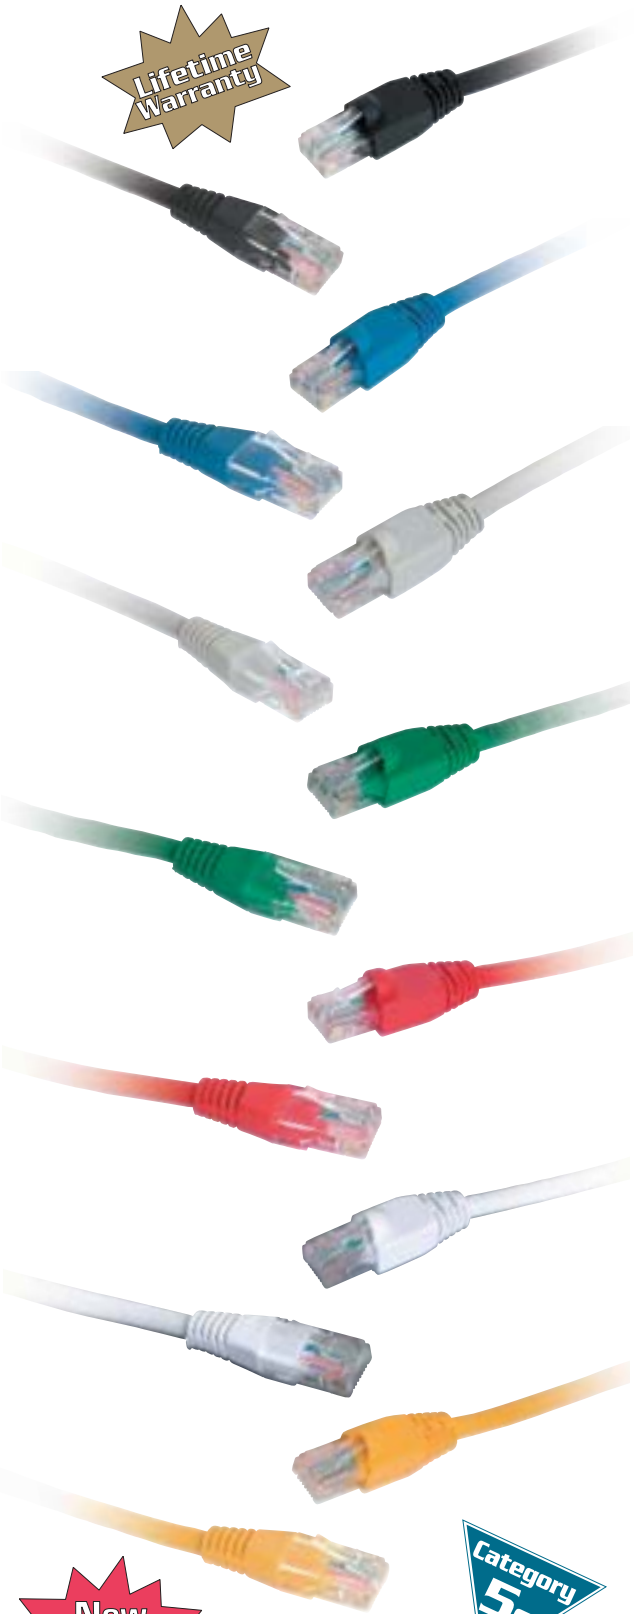
Q502



QUEST's Enhanced Category 5e/350Mhz UTP patch cords feature slim design molded strain-relief boots in both snagless and non-snagless types. They exceed specified performance as stated in TIA/EIA 568-A for connecting hardware and are manufactured using 350Mhz cable with 50u"gold plated modular connectors. Available in 568B and crossover wiring configurations. Offered in 7 colors for easy port or link identification. Lifetime warranted.

CUSTOM LENGTHS AVAILABLE

Quest now offers a broad range of bulk data and voice grade cables. New in our line is 4 pair Category 5e 350MHz solid and stranded and CAT6 solid in 1,000-foot pull boxes. These are high quality, UL listed and meet ANSI/TIA/EIA, ISO/IEC standards and offered in various colors. In addition, Quest also offers voice grade cable in flat silver satin and round in 1,000-foot reels.

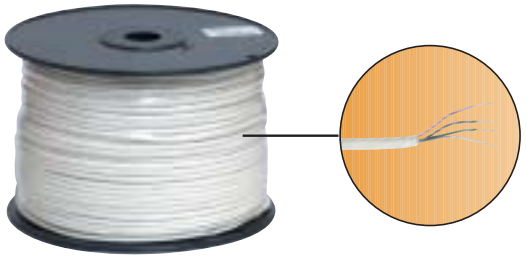
for complete interconnect products

CAT5e 350MHz UTP Solid / Stranded UTP

- Meets Category 5e requirements as per ANSI/TIA/EIA, ISO/IEC standards
- 2nd Edition ISO/IEC 11801 CAT5e
- Excellent ACR values for Power Sum NEXT/ELFEXT attenuation and return loss
- UL Listed Type CM/CMR
- PVC Jacket
- 350MHz Rated Cable
- 4 pair 24AWG Solid or Stranded Copper
- 1,000 Foot Pull-boxes

CAT 6 FUTURELAN 250 Solid UTP

- In compliance with Proposed Category 6 requirements as per ANSI/TIA/EIA, ISO/IEC standards
- Positive ACR @ 250Mhz
- UL Listed Type CM / CMR
- PVC Jacket
- Star insert separator design
- 4 pair 23AWG Solid Copper
- 1,000 Foot Pull-boxes



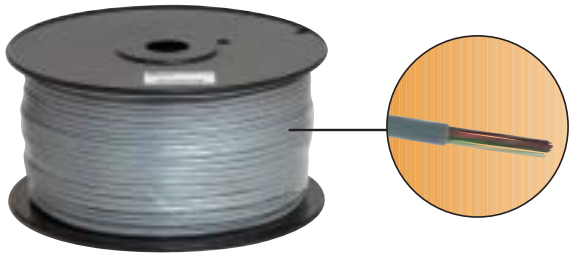


FIG. 1

TOOLESS C5E KEYSTONE JACKS

New Tooless RJ-45 CAT5e keystone jacks can be quickly terminated without punch-down tools. Simply prep the cable, remove the locking collar, lift the hinged contact cover, insert the pairs and manually press down the contact cover. Replace the locking collar and your'e done! Terminate jacks in seconds with total confidence!.

QUEST offers solid and vented 19" equipment shelves and trays for mounting telecommunication devices in 19" racks or cabinets. The vented designs offer added thru-airflow for assisting equipment to dissipate operational heat. They are offered in single or double sided, vented or non-vented, slide out vented designs that conform to EIA specifications for 19" racks and cabinets. They are manufactured with 16-gauge steel and are painted in black powder electrostatic finish with rolled edges to prevent equipment slippage. Mounting hardware is included.

QUEST also offers a 19" keyboard tray with mouse wing attachment that is reversible for right or left-handed use. They tray mounts in a 1 RMS space and is rolled to prevent keyboard slippage. Manufactured to support up to 52 pounds. Mounting hardware is included.

ITEM #	DESCRIPTION	FIG.

CUSTOM ENCLOSURES AVAILABLE
CONTACT YOUR LOCAL QUEST DISTRIBUTOR

FLOOR CABINET ENCLOSURES

Quest offers high-quality floor standing equipment cabinets that meet most equipment installation requirements. These enclosures are designed for mounting LAN Equipment, Computer Hardware, Telecommunications Equipment and other electronic equipment, which requires housing and central connectivity consolidation. They feature a strong aluminum frame design with removable cold-rolled steel side and top panels. The cabinets are available in several heights, colors and with standard depth or 32" deep dimensions which can accommodate servers or other types of equipment which require the extra depth. These cabinets are shipped fully assembled and can accommodate various accessories.

FEATURES & BENEFITS:

- ALUMINUM STRUCTURE CONSTRUCTION
- COLD-ROLLED STEEL SIDE AND REAR PANELS
- MEETS EAI-310D SPECIFICATIONS
- ACRYLIC KEYED FRONT DOOR - AVAILABLE ALSO IN TEMPERED GLASS
- REMOVABLE CASTERS
- ADJUSTABLE GLIDING FEET
- ADJUSTABLE INNER RAILS
- FAN ASSEMBLY ACCESS PROVIDED ON TOP
- COMES FULLY ASSEMBLED
- FINISHED IN ELECTROSTATIC PAINT
- AVAILABLE IN BLACK OR ALMOND
- SPECIAL DESIGNS AVAILABLE

ITEM #	DESCRIPTION

NWM-7321	7' FLOOR CABINET ENCLOSURE-45 RMS CAPACITY FOR 19" RACK MOUNT EQUIPMENT-32" WIDTH 32" DEEP-ACRYLIC DOOR-ALMOND

WALL-MOUNT ENCLOSURES

Wall mount enclosures provide a compact means in which to install 19" rack-mount equipment. These enclosures are manufactured in aluminum framing with steel side and top/bottom panels and are available in black or almond electrostatic paint finishes. Cable access is from top or bottom with top panel perforated to accommodate ventilation fans. Rugged and economical wall mount enclosure solutions are provided with this series of products.

Quest also provides swing-out designs for the wall-mount series, which allows installers the capability of accessing equipment and wiring from the front or rear and at the same time conserving wall space. Keyed access is provided to front door and rear compartment.

FEATURES & BENEFITS:

- ALUMINUM STRUCTURE CONSTRUCTION
- COLD-ROLLED STEEL SIDE AND REAR PANELS
- MEETS EAI-310D SPECIFICATIONS
- ACRYLIC KEYED FRONT DOOR - AVAILABLE ALSO IN TEMPERED GLASS
- ADJUSTABLE INNER RAILS
- FAN ASSEMBLY ACCESS PROVIDED ON TOP
- COMES FULLY ASSEMBLED

CUSTOM ENCLOSURES AVAILABLE
CONTACT YOUR LOCAL QUEST DISTRIBUTOR

QUEST provides only the best quality wire management products designed for mounting equipment and hardware. The 19" relay racks are offered in 4 and 7 foot heights and in natural aluminum and powder-coat electrostatic black finish. All racks are provided with all assembly hardware including equipment screws. They are designed with mounting holes for anchoring rack to the floor.

FEATURES & BENEFITS:

- FABRICATED WITH TOP GRADE ALUMINUM
- 12-24 THREADED RAILS ON BOTH SIDES
- DOUBLE ROLLED TOP CROSS BRACES FOR ADDED STABILITY
- ASSEMBLY HARDWARE INCLUDED
- EQUIPMENT SCREWS INCLUDED
- EASY TO ASSEMBLE

USB LAP-LINK CABLE

Quest's PC USB Lap link cable allows a fast solution for connecting between 2 PC's through USB ports. Not only does this cable allow for transmitting data at a much greater speed than traditional parallel connections, it also completely supports the plug-and-play functions of Windows 95/98 operating systems. Suitable for Notebooks, these cables are compliant with USB specification version 1.1. No external power required.

ITEM #	DESCRIPTION	FIG.
NUB-3000	6' USB LAP-LINK CABLE	3

USB PARALLEL SERIAL PRINTER CABLES

These connecting cables allow compatible printers to plug directly into a standard PC USB port. It can also be used to connect multiple printers or scanners to USB hub. Available in a 6 foot USB to Centronics 36 pin male connector for parallel printer requirements.

ITEM #	DESCRIPTION	FIG.
NUB-4000	6' USB A MALE TO 36 PIN CENTRONICS MALE	4

USB ADAPTERS

Quest's USB adapters allow changing of configurations from A type female to B type male and A type male to B type female. These are solidly constructed 1 piece adapters.

Please see Quest Full Line Catalog #Q700 for complete interconnect products

Newly offered are Din type cable assemblies, which are configured and used, for a variety of computer connecting applications. Among them are Keyboard or Mouse extension cables for AT and PS2 types and also for MIDI (Music Instrument Digital Device) applications. These are quality cables, which are molded and constructed with shielded cable. Also available are Mini-Din in-line adapters.

Lifetime Warranty

Quest now offers an array of external SCSI (Small Computer System Interface) cables that allows the attachment of various external devices to a single controller card in a computer. SCSI is often used in high-end PC's and server computers because of its greater flexibility and faster performance when compared to other Input/Output (I/O) technologies. SCSI I specifies DB25, DB50 or Centronics 36 connectors. SCSI II specifies Half Pitch DB50 and SCSI III specifies Half Pitch DB68 connectors.

FEATURES :

- ALUMINUM MYLAR SHIELD
- TINNED COPPER DRAIN WIRE
- TINNED STRANDED COPPER CONDUCTORS
- MOLDED WITH THUMBSCREWS
- PVC JACKET
- LIFETIME WARRANTY

In addition to the complete line of professional installation tools already offered, Quest has now added a new RF ratchet crimp tool frame that comes without die sets giving installers the choice of purchasing individual die sets to fit their specific requirements. This tool is offered in conjunction with a new series of interchangeable die sets, which are offered for many cable and connector types. As an accessory product, newly offered are thumbscrew sets, which replace the traditional die screws and gives the user the ability to quickly remove and interchange different dies securely.

The QUEST Professional Ratchet Crimp Tool series provides installers the best choice in professional connector crimp tools. These tools are designed for durable use and provides long life dependability and consistent, reliable terminations, crimp after crimp. They feature a 10" frame design, which allows increased leverage during the crimp process with a ratchet action mechanism providing easy, repeatable and reliable crimps. The tools come complete with die sets, which are also interchangeable. ***Lifetime warranted.***

Quest Technology launches its new line of Digital Optical Cables, sometimes referred to as Toslink Cables for use in digital audio applications and is manufactured with high-grade optical cable with high-purity optical fiber. It is especially suited for digital signal transmission without EMI. There are 2 types of terminations used with digital optical cables; one is referred to as Toslink, which derives from its developer, Toshiba, and the other is a 3.5mm Mini type that resembles a 3.5mm miniature male connector. Quest's cable assemblies feature metal connector housings for added durability and come in a high-tech black color. In addition, Quest offers a complete assortment of interface adapters and couplers.

To complement our lines of audio and video related products, Quest has now added a series of audio and video connectors and adapters. These include 3.5mm connectors in plastic or metal housings, RCA connectors also in plastic or metal housings along with a series of Mini Din connectors and in-line adapters. Totally new are triple molded in-line adapters with triple-RCA, which supports video, and stereo audio with color-coded insulators in yellow, red and white. In this design, Quest is also offering a triple molded in-line coupler featuring S-VHS (Mini Din 4) and 2 audio RCA couplers which have color-coded insulators to delineate right and left audio channels.
