Our Mission

Our mission is to lead our industry by providing quality products, superior customer service, technical innovation and on-time delivery. We realize that we cannot exist without the support of our customers, employees, and suppliers and we will treat them all with integrity and professionalism.

What To Know

Ordering with Platt is easy. Please specify Platt part number, color and quantity. For molded cases and sewn tool cases specify top and bottom pallet option. Use chart below as a reference or call our customer service department at 1-800-99-PLATT (997-5288) or visit our webpage at www.plattcases.com.

To Order Specify:

1. Platt#
2. Color
3. Top pallet (select from page 10-11)
4. Bottom pallet (select from page 10-11)

REFERENCE INFORMATION

Platt #	Platt part number
O.D.	Outside dimension
I.D.	Inside dimension
Color	Available color options
Body Depth	Interior depth of bottom half of case
Ship wt.	Shipping weight, including packaging
Option	Additional info to consider. ie. turnbutton on pallets.
Valance	Aluminum molding around edges of lid and base to ensure snug closure. Also referred to as a rim or frame.
Turnbutton	Knob fastener to hold top pallet in case lid.
ABS	ABS Thermoplastic. A tough high-performance material specified for years in many consumer and commercial applications because of its cost/performance balance, strength and durability.
HMW	(High Molecular Weight) Polyethylene. A superior performing, yet lightweight material providing the best in high-impact strength, durability, environmental stress-crack resistance, economy and superior chemical resistance.
Polypropylene	A tough high-performance material with superior chemical resistance.

Reference Material

BM99-1	Blow Molded Case Product Sheet
ENG03-1	Engineering Custom Case Catalog
MST05-1	Mini Product Catalog

Limited Warranty

All Platt cases are under warranty against manufacturing defects, under normal use, for a period of one year from the date of purchase. Any defect, which is a result of faulty workmanship or materials will be repaired and returned free of charge. When, in our judgement, damage is caused by misuse or the guarantee period has expired, we will repair, if practical, for a reasonable charge. If damage is caused by common carrier abuse or airline mishandling, claim must be made with that carrier. Determination of suitability of product for uses and applications contemplated by Buyer shall be at the sole responsibility of Buyer.

Disclosure

Platt continues product improvements. We reserve the right to deviate from product descriptions as shown in catalog.

QUALITY THAT LASTS.

FOAM-FILLED CASES

Blow Molded Cases

107   307   507

Blow Molded Cases

Meet Platt's low cost solution to "Make-Your-Own" case needs.

These cases are foam-filled and manufactured from prime, high-density polyethylene, with double wall construction. The textured exteriors resist dents, cracking and scuffs. The shells are unaffected by extreme temperatures.

The hardware features mechanical latches that are field replaceable and a mechanical hinge system that is made to last.

All cases meet U.S. 94B Specifications as an electrical insulator and are impervious to chemical attack.

Custom ATA Guardsman Cases

Multi-Laptop Case

Piggyback Case

Multi-Purpose Shipping Case

Patented Guardsman™ Design & Construction

Platt's Guardsman cases are unique and easily recognizable. Construction features HMW polyethylene thermoplastic sheets bent to size to form strong but lightweight shipping cases ideal for computer, video, audio, medical, electronic instrumentation and industrial equipment. All cases use our UNIQUE CONTINUOUS FRAME CONSTRUCTION for maximum strength and durability. Cases include full-length piano hinge, recessed spring-loaded handle and latches.

Foam interiors can be made to your individual requirements using polyurethane ether or ester foam, polyethylene foam, anti-static, conductive or static dissipative foam.

Options include different colors, stacking studs, combination lock, fixed or removable casters, wheels and telescoping handle, key lock, padlockable latches and conductive polyethylene for protection against ESD discharge damage.

All orders (**EVEN ONE CASE**) are quoted by Platt depending on size, foam interiors, other options and quantity. Call your local distibutor.

Color / Material Options

Platt's Guardsman™ cases are available in black, safety yellow, safety orange, gray, blue, green, and white. Other special colors are available with minimum order requirements. Also available as a Jetalum™ all aluminum construction. Contact factory for availability.

Telescoping Handle ATA

Platt's Guardsman™ cases are available with built-in wheels and telescoping handle. Not only are the Guardsman™ cases able to take the rigors of shipping, but now, when you get the case, it is easy to move. Convenient for display cases or product cases.

Custom Guardsman Tool Cases

Platt's Patented Guardsman ATA Tool Cases are built to exceed the exacting ATA shipping requirements. They have been tested and approved to ATA 300 specs.

They're constructed from an ***ultra-durable (yet light-weight) HMW polyethylene material*** with your choice of seven standard colors. They're ***line bent to assure uniform thickness and unsurpassed strength.*** By using polyethylene, these cases are ***up to 50% lighter*** than traditional wood transit cases, and because they are bent instead of formed, all corners and edges are the same thickness as the rest of the case, thereby eliminating the traditional weak spots associated with other materials.

Polyethylene can be stored in any environment from -40⁰ to 140⁰ and is unaffected by all common industrial solvents. Plus, our bent aluminum continuous framing system provides the ultimate in strength, and attractive appearance. Our valance system has a gasket for water/dust resistance. Platt uses completely recessed hardware which further resists damage in transit and can be furnished with combination locks or key locks in the latches.

These cases are also available as a Jetalum™ all aluminum construction.

Platt's Engineering Department will assist you in the design of your Guardsman ATA case. Pallets and interiors can be customized to hold your selection of tools.

"Your Small Quantity Specialist"

Tools Not Included

TOOL PALLETS

All Platt standard size stock tool cases come with molded pallets. The top pallet is always pallet C. The bottom pallet is always B. If these pallets are not appropriate for the user's tools, Platt will substitute the molded pallets of user's preference at no charge, or sewn pallets for a small additional cost.

If you wish to change the pallet(s) in a stock case, simply change the pallet letter(s) after the case letter, i.e. 600T-KL. (First letter is top pallet, second letter is bottom pallet).

Pallets can be ordered separately by ordering the individual pallet letter. All of our sewn pallets can be furnished as top or bottom pallets. Our urethane pallets are molded with just the right amount of give, but also toughness to be a pleasure to work with. Our sewn pallets have strong pockets and pouches to hold a wide range of tools and parts.

All outer edges of our pallets are sewn through our heavy backing material to prevent the separation you might have experienced in pallets of lesser quality.

Platt can custom design sewn pallets in a broad range of configurations. Contact Platt for further details, specific capabilities, and minimum order quantity.

All Platt super-size stock cases come with SGSH pallets. (357T, 349T, 369T, 410TH, 777TH) Super-size pallets are designated with S, in front of the pallet letter, i.e. SE

Clean room pallets available upon request.

Additional Pallet Information

The outer edges of Platt sewn pallets are sewn all the way through the heavy backing material and reinforced with rivets to prevent the separation and tearing common in pallets of lesser quality.

Pallets may be ordered without cases. Simply specify the pallet letter.

Platt will custom design pallets for your specific needs. Please contact your local Platt representative or call our customer service department for details. A minimum quantity may apply.

Custom Sewn Cases

The design options are almost unlimited. In addition to soft-sewn cases, we produce pouches, pockets, padded cases, foam-filled soft cases, plus numerous other workplace styles.

We work primarily with nylon, 600d polyester, and coated vinyl, but other materials are available in a wide range of colors, depending on your application and your preference.

Contact Platt's Engineering Department at (800) 222-1555 to discuss your particular application.

Custom Molded Cases

The design options are almost unlimited. Platt can do standard cases with custom foam, custom molded cases with your choice of hardware, custom logos, doors, handles, wheels, etc. Platt can also do custom tooling to make your case totally unique.

Contact Platt's Engineering Department at (800) 222-1555 to discuss your particular needs and details.

INSERTS

Quality that Lasts.

84 years of experience and innovation in the custom case industry has positioned Platt as the industry leader.

It's no wonder when you consider that Platt was the first to introduce: combination locks on luggage, cushioned handles, custom hardware, plastic molded bowling bags, and urethane pallets. Our product development team and experienced engineers have the knowledge to make your dream case a reality.

From soft-sewn zipper tool bags to foam-filled cases, we will work with you to create a case for any use.

Contact our engineering department or your local distributor for additional information.
