

# AFCI, GFCI and AC Circuit Load Tester

**Quickly checks for correct wiring of AFCI/GFCI outlets and circuit breakers**  
Large LCD display with color pass/fail test alerts

## Features:

- Outlet Tester functions:
  - AFCI
  - GFCI Trip Current
  - GFCI Trip Time
  - EPD Trip Current
  - Neutral to Ground Voltage
  - Hot, Neutral and Ground Impedance
  - Open or Reversed wiring
- AC Load Tester
  - Selectable loads of 12, 15 and 20 Amps
  - Measures loaded and unloaded AC Line Voltage
  - Calculates and displays % Voltage Drop and Line Impedance
  - Displays Peak Line Voltage and Frequency
- Over-Temperature protection
- Complete with AC test cord (standard North American 3-prong plug)

Tests 3-wire standard GFCI receptacles.

Display turns red when a problem is detected

One button AFCI operation for quick and accurate Arc Fault Circuit interrupter testing

**NOTE:** This product is supplied with a standard North American 3-prong plug

## Specifications

AC Voltage	85.0 to 250.0V
Frequency	45.0 to 65.0Hz
Peak Line Voltage	350.0V
% Voltage Drop	0.1 to 99.9%
Dimensions	8 x 2.8 x 2" (203.2 x 71.1 x 50.8mm)
Weight	11.2oz (317.5g)

## Ordering Information

CT80 .....AC Circuit Load Tester with GFCI and AFCI  
CT70-AC .....Replacement AC Power/Tester Cord
