

These non-insulated ring terminals are made of electrolytic copper for high conductivity. They can be installed with crimping tools having a single indenter or double indenter (recommended for solid wire). Serrated barrel increases grip on wire. Wire range identification is stamped on the tongue of each terminal.

Stock Thickness:

D & E = .06

F = .07

D10, E10, F10 = .04

D975 & F975 = .04

Non-Insulated Ring – Brazed Seam
