

The Klein Tools ET910 is a USB digital meter and tester combination for most common USB-A ports, including Qualcomm Quick Charge® ports. It accurately and reliably measures and displays the USB port voltage, current, capacity, energy and resistance simultaneously. It can also test the maximum current delivery capability of the USB port with built-in fixed loads, so the user need not connect to an external load. It can function with any USB-A port that has the ability to deliver power. It requires NO batteries as it draws power from the power source to function.

Specifications

Type:	USB-A (Type A)	Application:	USB Port Voltage, Current, Capacity, Energy, Resistance (Calculated), Max Current
Special Features:	Current Test Loads: 0.5A, 1A, 2A, 3A	Voltage:	3 to 20V DC
Current:	0.05 to 3A	Capacity used:	99999 mAh Maximum
Energy delivered:	999 Wh Maximum	Resistance:	400 Ohms Maximum
Elapsed time:	Up to 999 hours, 59 min, 59 secs	USB Compatibility:	USB-A; Qualcomm Quick Charge® Compatible
Drop Protection:	2 m (6.6')	Ingress protection:	IP20
Display:	LCD	Material:	Polymer
Overall Length:	4.31" (109.5 mm)	Overall Height:	0.98" (24.9 mm)
Overall Width:	2.15" (54.6 mm)	Weight:	2.8 oz (79.4 g)
