

Premium Multimeter Test Probe Kit

Durable nylon carry case containing one red and one black soft grip premium test probe leads and two nickel plated steel alligator clips, complete with one red and one black PVC insulator.

Constructed with ultra-flex 18 AWG silicone jacketed wire and over-molded, shrouded, right angle safety 4mm banana plugs.

Probes feature snap-on safety tips for extended category III voltage ratings.

Compatible with all major Digital Multimeter brand instruments fitted with standard 4mm sockets

Nickel plated steel alligator clips attach to the standard probe tips to facilitate convenient hand-free connections.

The durable nylon carry case protects the kit from damage, tangles and snagging.
