## SERIES 99 HANDLES AND INTERCHANGEABLE BLADES

The series 99 interchangeable blades and handles are all available separately, allowing gradual, economical accumulation of whatever items might be needed for your individual requirements. This also permits owners of series 99 sets or kits to enlarge them or substitute tools, as necessary, at minimal cost. All blades are high carbon steel with highly polished nickel chrome finish except Bristol and Allen hex types which are precision formed, cold drawn, case hardened steel. Plastic handles have a patented spring device that holds blades firmly, yet permits quick, easy insertion and removal. All the 99 series blades fit all the 99 series handles.
