

AC Current Probe Model MN375

The Model MN375 is the latest in compact AC current probes. It is designed to meet the most stringent demands in industry and electrical contracting. Model MN375 meets EN 61010, 600V, Cat. III safety standards and is CE Marked and UL approved for Canada and United States.

The Model MN375 has a 0.78" (20mm) jaw opening and accommodate conductors up to 250MCM. The unique hooked jaw design facilitates clamping and hooking onto conductors. Polycarbonate materials and ultrasonic welding are used throughout to ensure ruggedness and overall lasting reliability.

The Model MN375 is a high performance model and uses a custom nickel core to improve accuracy and phase shift on the low end of the measurement range. The Model MN375 is an excellent probe to be used in power and low level current measurement applications.
