

Description: Mounted directly on the enclosure's frame or onto the click-in profiles (CLPK). Special design of the bracket allows one man assembly. Can be mounted in any height or depth position within the 25 mm hole pattern. Appropriate sizes can also be used on the sides of the enclosure.

Material: 3 mm galvanized steel.

Pack quantity: 1 plate with mounting accessories.

Mounting requirements: Add CLPK for depth adjustment.

Note: MPP can be mounted in both directions.
