The P004-L06's locking C13 connector helps you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking cable is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the power cord always stays connected.
Designed to Keep Your Equipment Connected a Long Time without Stress The SJT cable jacket is accentuated with integral strain relief, which gives the cable extra flexibility, reduces stress, and helps the cable and connectors move freely without cracking.
