# PURRMETRIX LARGE BUNDLE

PMTX040020

Simple wireless installation

Accurate sensing; high resolution

Maps activity on building plans

Small, discreet sensors

Long battery life (up to 3 years)

Supports Purrmetrix analytics

**Everything you need to get started monitoring conditions in your office, shop or commercial building.** Two gateway units, twenty temperature sensors, a standard gateway and one month's free access to our pro level of web service (worth £40).

## Temperature sensors
(PMTX010001)

Our temperature sensors are small, robust sensors that can easily be fitted anywhere to report live temperature data. They are highly accurate (to 0.5°C) and can register 0.12 °C differences in temperature.

Easy to fit and easy to look after, sensors can live on their battery for up to three years. Allowing you to focus on delivering the right conditions for your staff and equipment.

## For more detail see data sheets:
PMTX010001 - temperature sensors
PMTX020017 - gateway units

## PRO WEB SERVICE

Your starter bundle comes with one months free access to our pro level web service to collect and display temperature data. This allows you to explore all the features of our powerful web service and gives you the tools to understand how your environment is changing with time and to share your insights with others.

At the end of the month you can choose to stay on the pro level of webservice or downgrade to our basic or free webservice.
