Pro-Power-SIL4

Silicon Coated Glass Braid Insulation sleeving. Class H (180°C) 4.0kV grade

Applications

Suitable for high temperature rated electrical equipment and appliances, for use as primary insulation or as secondary reinforcing. Also offers protection for conductors in high heat applications and in areas of likely mechanical damage.

Supplied in 5 metre coils.

Ordering Information

PART Number	INSIDE DIAMETER (min)	WALL THICKNESS Typically (mm)
Pro-Power-SIL4-2.00-0	2.0	0.80
Pro-Power-SIL4-4.00-0	4.0	0.80
Pro-Power-SIL4-6.00-0	6.0	0.80
Pro-Power-SIL4-8.00-0	8.0	0.80

Colour

Black

Properties

Thermal Classification	Class H (180°C)
Construction	Silicon Coated Glass Braid
Maximum Short term Temperature	250°C
Electric Strength @ 20°C	Tested to IEC 684-2 4.0kV/1 min ASTM D350 7000V
Flammability	Self Extinguishing

This product is Compliant with ROHS 2002/95/EC the Restriction of use of certain Hazardous Substances in electrical and electronic equipment.
