Description	Technical Specs	Extended Information
-------------	-----------------	----------------------

Platt now offers our molded pallets for our super sized tool cases.

All purpose molded pallet with 27 pockets and turnbutton. Our molded pallets have just the right amount of give, yet toughness to be a pleasure to work with.

Pallets can be ordered seperately by ordering the individual pallet letter.

All Platt standard size stock tool cases come with molded pallets. The top pallet is always pallet C. The bottom pallet is always B. If these pallets are not appropriate for the users tools, Platt will substitute the molded pallets of users preference at no charge, or sewn pallets for a small additional cost. If you wish to change the pallet(s) in a stock case, simply change the pallet letter(s) after the case letter, i.e. 600T-KL. (First letter is top pallet, second letter is bottom pallet).
