1-1 of 1

Series name : SK01D2E-12033

Product category : For 3-Phase 200V circuit

Specifications : Rated voltage 250VAC, Capacitance range 0.33μF, Resistance value 120Ω, Operating temperature range -40 to +100℃

Safety standards : UL, cUL, VDE

Country of origin : Japan

Features : For contact protection(quenching the contact spark)/ absorption of back electromotive surge voltage , Direct contact type with electromagnetic contact or(for absorbing main circuit surge), Safety standard certified product
