

# Metcal SSC Tip Cartridges for OKi MFR-H6-SSC Hand-piece

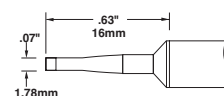

The new MFR-H6-SSC Hand-piece is compatible with the Metcal SSC Tip Cartridge range and the OKi MFR-1100 Single Output and MFR-2200 Dual Output Soldering and Rework Systems.

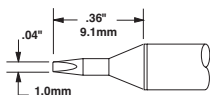

## CHISEL SOLDERING TIP CARTRIDGES

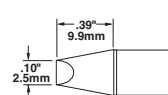

SSC-725A  
Chisel 30°  
1.0mm (.04")

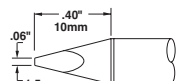

SSC-742A  
Long Reach Chisel 60°  
1.78mm (.07")

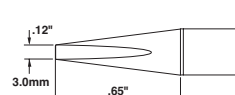

SSC-771A  
Conical Chisel  
1.0mm (.04")

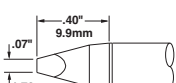

SSC-736A  
Chisel 30°  
2.5mm (.10")

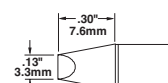

SSC-738A  
Chisel 30°  
1.5mm (.06")

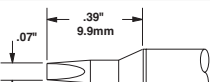

SSC-746A  
Long Reach Chisel  
3.0mm (.12")

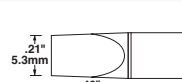

SSC-737A  
Chisel 30°  
1.78mm (.07")

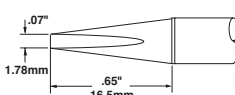

SSC-713A  
Chisel 90°  
3.3mm (.13")

SSC-772A  
Conical Chisel  
1.78mm (.07")

SSC-717A  
Extra Large Chisel  
5.3mm (.21")

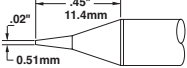

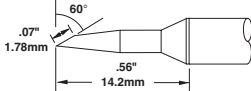

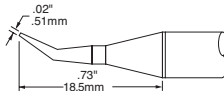

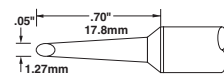

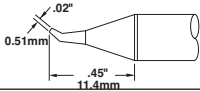

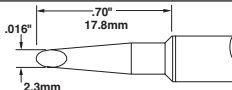

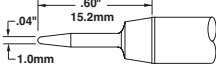

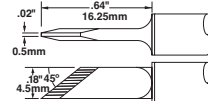

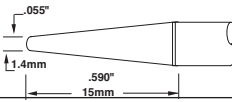

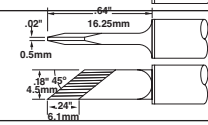

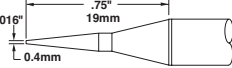

SSC-770A  
Long Chisel  
1.78mm (.07")

7 = 700 Series for most standard applications. 6 = 600 series and 5 = 500 series also available for temperature sensitive applications. To order these series, replace 7 with either 6 or 5.

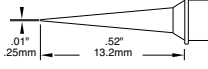

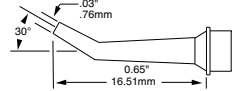

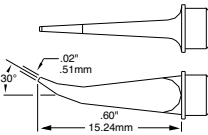

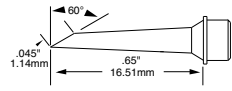

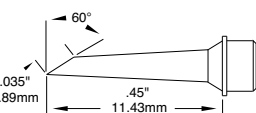

## OTHER SOLDERING TIP CARTRIDGES *for longer reach touch up applications*

	<b>SSC-722A</b> Conical Sharp 0.51mm (.02")		<b>SSC-747A</b> Bevel 60° 1.78mm (.07")
	<b>SSC-754A</b> Conical Sharp, Bent 30° 0.51mm (.02")		<b>SSC-767A</b> Drag Soldering Tip (Mini-Hoof), 1.27mm
	<b>SSC-726A</b> Conical Sharp, Bent 30° 0.51mm (.02")		<b>SSC-739A</b> Drag Soldering Tip (Hoof), 2.3mm
	<b>SSC-701A</b> Conical Sharp 1.0mm (.04")		<b>SSC-761A</b> Drag Soldering Tip (Knife), 4.5 mm
	<b>SSC-774A</b> Conical Sharp 1.4mm (.055")		<b>SSC-773A</b> Drag Soldering Tip, 4.5mm . Increased Tinned Area 6.1mm
	<b>SSC-745A</b> Conical Sharp 0.4mm (.016")		

7 = 700 Series for most standard applications. 6 = 600 series and 5 = 500 series also available for temperature sensitive applications. To order these series, replace 7 with either 6 or 5.

## MICRO FINE REWORK TIP CARTRIDGES

	<b>SSC-790A</b> Conical Sharp 0.25mm (.01")		<b>SSC-7171A*</b> 0.76mm (.03")
	<b>SSC-7172A</b> Drag Soldering 0.51mm (.02")		<b>SSC-7174A</b> Long Reach Micro Drag Soldering 1.14mm (.045")
	<b>SSC-7175A</b> Micro Drag Soldering 0.89mm (.035")	<b>*</b> Use to remove 0201 and 0402 components from a "topside" angle. This design increases microscope viewing when reworking/removing micro chip capacitors/components.	

7 = 700 Series for most standard applications. 6 = 600 series and 5 = 500 series also available for temperature sensitive applications. To order these series, replace 7 with either 6 or 5.

The new MFR-H6-SSC Hand-piece is compatible with both OKi MFR-2200 and MFR-1100 Series Soldering and Rework Systems.
