

T Series Cable ties Datasheet

Product – T Series Ties

Features & Benefits

Available in a wide range of materials, these cable ties all feature internal serrations allowing for a positive hold onto cable, hose and pipe bundles. The design of the head guarantees a high tensile strength whilst allowing a very low insertion force, this, combined with the bent tail design of many of the ties, ensures a simple and quick installation. Whilst easily installed by hand, manual and pneumatic (for high volume applications) tensioning tools are available to ensure a consistent and safe installation.

For the routing, bundling and securing of cables, pipes and hoses.

Product No.	Product reference	Length (mm)	Width (mm)	Tensile Strength		Max bundle diameter mm	Colour
				lbs	N		
T50L.NR3P	T50L RED 100	380	4.7	50	225	110	Red
