## KEMET Part Number: T591D686M020ATE040

T591, Tantalum, Polymer Tantalum, 68 uF, 20%, 20 VDC, SMD, Polymer, Molded, Low ESR, 40 mOhms, 7343, Height Max = 3.1mm

| Dimensions |                 |  |
|------------|-----------------|--|
| Footprint  | 7343            |  |
| L          | 7.3mm +/-0.3mm  |  |
| W          | 4.3mm +/-0.3mm  |  |
| Н          | 2.8mm +/-0.3mm  |  |
| Т          | 0.13mm REF      |  |
| S          | 1.3mm +/-0.3mm  |  |
| F          | 2.4mm +/-0.1mm  |  |
| A          | 3.8mm MIN       |  |
| В          | 0.5mm +/-0.15mm |  |
| Р          | 0.9mm REF       |  |
| R          | 1mm REF         |  |
| Х          | 0.1mm +/-0.1mm  |  |

| Packaging Specifications |            |  |
|--------------------------|------------|--|
| Packaging:               | T&R, 178mm |  |
| Packaging Quantity:      | 500        |  |

| General Information |                                             |  |
|---------------------|---------------------------------------------|--|
| Series:             | T591                                        |  |
| Dielectric:         | Polymer Tantalum                            |  |
| Style:              | SMD Chip                                    |  |
| Description:        | SMD, Polymer, Molded, Low<br>ESR            |  |
| Features:           | Automotive                                  |  |
| RoHS:               | Yes                                         |  |
| Termination:        | Tin                                         |  |
| Qualifications:     | AEC-Q200 (Limited 500 Hrs<br>85C/85% RH/Ur) |  |
| AEC-Q200:           | Subject to PPAP/PSW and change control      |  |
| Component Weight:   | 434.8 mg                                    |  |
| Shelf Life:         | 52 Weeks                                    |  |
| MSL:                | 3                                           |  |

| Specifications         |                                                                            |  |
|------------------------|----------------------------------------------------------------------------|--|
| Capacitance:           | 68 uF                                                                      |  |
| Capacitance Tolerance: | 20%                                                                        |  |
| Temperature Range:     | -55/+125°C                                                                 |  |
| Rated Temperature:     | 105°C                                                                      |  |
| Humidity:              | 85C, 85% RH, load, 500 Hours                                               |  |
| Dissipation Factor:    | 10% 120Hz 25C                                                              |  |
| Failure Rate:          | N/A                                                                        |  |
| Resistance:            | 40 mOhms (100kHz 25C)                                                      |  |
| Ripple Current:        | 3350 mA (rms, 100kHz 45C),<br>2345 mA (rms, 105C), 837.5 mA<br>(rms, 125C) |  |
| Leakage Current:       | 136 uA (5min 25°C)                                                         |  |

Statements of suitability for certain applications are based on our knowledge of typical operating conditions for such applications, but are not intended to constitute - and we specifically disclaim - any warranty concerning suitability for a specific customer application or use. This Information is intended for use only by customers who have the requisite experience and capability to determine the correct products for their application. Any technical advice inferred from this Information or otherwise provided by us with reference to the use of our products is given gratis, and we assume no obligation or liability for the advice given or results obtained.
