

USB-C Cable (M/M) - USB 2.0, 5A Rating, USB-IF Certified, Thunderbolt 3 Compatible, 2 m

MODEL NUMBER: U040-C2M-C-5A

Provides up to 20V 5A (100W) for powering and charging your MacBook Pro or other mobile device through a USB-C charger or power bank.

Features

USB-C to USB-C Cable Connects 2 USB-C Devices, Including MacBooks and Smartphones

This two-meter USB Type-C to Type-C cable allows you to connect one USB-C device to another. For instance, a laptop to a docking station, your smartphone to a wall charger, or a hard drive or flash drive to a computer or tablet. The USB-C to C cable is compatible with any device with a USB-C or Thunderbolt 3 port, including MacBooks, Ultrabooks and Chromebooks.

PD Charging Cable Produces up to 100W for Rapid Syncing and Charging

The Power Delivery cable provides power output up to 5 amps (100 watts), which is sufficient for fast-charging, syncing and powering most large-capacity devices, including the MacBook Pro. It also supports USB 2.0 data transfer rates up to 480 Mbps. The USB Type-C to USB Type-C cable is backward compatible with previous USB generations, allowing you to use it with older equipment.

Reversible USB-C Connectors Attach in Either Direction

Unlike traditional USB cables that connect in only one direction, the reversible USB-C male connectors plug into a USB-C or Thunderbolt 3 port in either direction for a fumble-free connection every time.

USB-IF Certification Ensures Rigorous Testing and Top-of-the-Line Performance

This cable meets the high standards of USB-IF (USB Implementers Forum, Inc.), a non-profit organization consisting of companies that developed the USB specification. Receiving USB-IF certification means the U040-C2M-C-5A meets the industry's highest environmental, mechanical and electrical standards. It operates with your USB peripherals, adapters and cables with top efficiency and safety.
