## **High Speed Products**

# **Features and Specifications**

Product Type	Passive Copper		
Conductor Sizes	25 – 30 AWG conductor sizes available to achieve maximum performance up to 7m		
Conductor Treatment	Laser Stripped Conductors		
Cable Type	PVC		
Cable Color	Black		
Packaging	PE Bag		
Power Supply Voltage	3.3 V		
Temperature Range	0 – 70° C		
Retention Force	Minimum 90 N, Maximum 170 N		
Insertion Force	Maximum 18 N (SFP+), 40N (QSFP+)		
Options Include	Customer specified EEPROM Map Cable length Low Smoke, Zero Halogen (LSZH) jackets Custom colors for pull tab and cable jacket		

Volex reserves the right to change specifications and availability without prior notice

## **Data Sheet**

# QSFP+ to 4x SFP+ Passive Copper Cables

Volex's QSFP+ to 4x SFP+ hybrid passive copper cable assemblies are a costeffective, low-power alternative to optical modules for short reach links in highspeed interconnect applications . The cables enable 40G QSFP+ breakout to 4x 10+G SFP+ ports, optimizing data center solutions for connecting 40G Ethernet ports to 10G Ethernet switches and adaptors.

### Each QSFP+ to SFP+ hybrid passive

**copper cable** is fully shielded by design utilizing a combination of shielded twinaxial cable and robust die cast housings with actuating pull latch. For added robustness, the overmold technique used in fabrication for these cables provides additional strain relief and minimizes conductor pistoning.

### **APPLICATIONS**

- Ethernet 10G, 40G
- Fiber Channel 8G, 14G
- Rapid IO
- Myrinet 40G
- Networking
- Storage
- Hubs, switches, routers, and servers

## **STANDARDS COMPLIANCE**

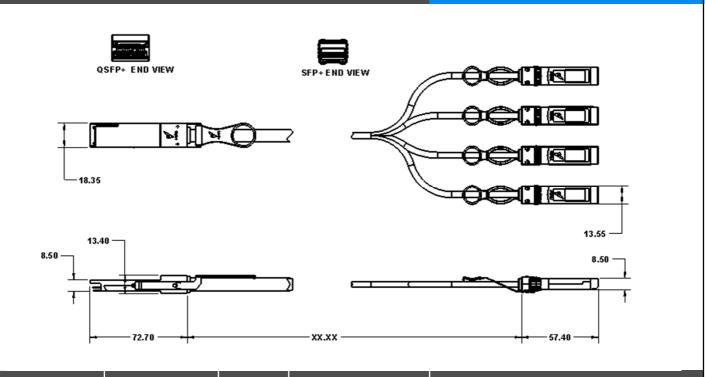

- Electrical: SFF-8419, SFF 8436
- Mechanical: SFF-8432, SFF-8661
- Memory Map: SFF-8472, SFF-8636
- IEEE P802.3ba
- RoHS

Reduce ink consumption by printing this brochure in black and white.
