WYSACVLAY-XZ

Data Report

By purchase of any of products described in this document, the customer is deemed to understand and accept contents of this document.

ATTENTION: Software related to this module may be under Japan export control. Depending on the customer's country and application (e.g. weapons), Taiyo Yuden may not be able to provide the software to all customers. Please contact your local Taiyo Yuden sales office for additional information.

To contact your local sales office and for additional product information, please visit www.ty-top.com.

WYSACVLAY-XZ

TAIYO YUDEN CO., LTD.

Control No. HD-AG-A191006	(1/7)	Control name General Items
------------------------------	-------	-------------------------------

1. Scope

This specification ("Specification") applies to the hybrid IC "WYSACVLAY-XZ" for use Wireless LAN module ("Product") manufactured by TAIYO YUDEN CO., LTD. ("TAIYO YUDEN")

2. Description

- ① Product Name : WYSACVLAY-XZ
Type : WYSACVLAY

Note: Please let us know the Product Name (WYSACVLAY-XZ) to order this product.

- ② Chip : NXP 88MW320
- ③ Function : CPU embedded Radio frequency transceiver Module.
(IEEE 802.11 b/g/n conformity)
- ④ Application : IoT devices
- ⑤ Structure : Hybrid IC loaded with silicon monolithic semiconductor.

Regarding the containment of hazardous substance in this Product, it conforms to RoHS Directive.

Ability of lead free mounting at customer's assembly
(Heat resistance of this Product) : Yes

- ⑥ Outline : 44-pin Land Grid Array
- ⑦ Marking : Part Number, Lot Number, Japan ID, FCC ID, ISED ID and manufacturer on Shielding Case
- ⑧ Country of origin : Japan or Thailand
- ⑨ Packaging : Packaging method: Tray
Packaging unit: 840pcs
Standard order quantity : 840pcs multiples

⑩ Notes**a. Limitation of Warranty**

- i) TAIYO YUDEN provide warranties only if the product is operated under the condition set forth in this specification. Please note that TAIYO YUDEN shall not be liable for any defect and/or malfunction arising from use of the product under the terms and conditions other than the operating conditions hereof. In addition when this product is used under environmental conditions such as over voltage which is not guaranteed, it may be destroyed in short mode. To ensure the security of customer's product, please add an extra fuse or/and a protection circuit for over voltage.

WYSACVLAY-XZ

TAIYO YUDEN CO., LTD.

Control No. HD-AG-A191006	(2/7)	Control name General Items
------------------------------	-------	-------------------------------

ii) In some cases, TAIYO YUDEN may use replacements as component parts of products. Such replacement shall apply only to component part of products, which TAIYO YUDEN deems it possible to replace or substitute according to (i)

scope of warranty provided in this specification (e.g. electric characteristics, outline, dimension, conditions of use, reliability tests, official standard (type approvals etc.)) and (ii) quality of products. TAIYO YUDEN also ensures traceability of such replacement on production lot basis.

b. Instruction for Use (CAUTION)

i) This Product is not designed to be radiation-resistant. Please do not expose Product to radiation..

ii) Communication between this product and other might not be established nor maintained depending upon radio environment or operating condition of this product and other products with wireless technology.

iii) This product operates in the unlicensed ISM band at 2.4GHz. In case this product is used around the other wireless devices which operate in same frequency band of this product, there is a possibility that interference occurs between this product and such other devices. If such interference occurs, please stop the operation of other devices or relocate this product before using this product or do not use this product around the other wireless devices.

c. Term of Support

i) In the case that customer requests TAIYO YUDEN to customize the hardware of this Product in order to meet such customer's specific needs, TAIYO YUDEN will make commercially reasonable effort to modify such hardware or software at customer's expense; provide however, the customer is kindly requested to agree it doesn't mean that TAIYO YUDEN has obligations to do so even in the case it is technically difficult for TAIYO YUDEN.

ii) Any failure arising out of this Product will be examined by TAIYO YUDEN regardless of before or after mass production. Customer agrees that once such failure is turned out not to be responsible for TAIYO YUDEN after aforesaid examination, some of the technical support shall be conducted by TAIYO YUDEN at customer's expense; provided however, exact cost of this technical support can be agreed through the negotiation by the parties.

iii) Do not alter hardware and/or software of this Product. Please note that TAIYO YUDEN shall not be liable for any problem if it is caused by customer's alteration of Hardware without Taiyo Yuden's prior approvals.

WYSACVLAY-XZ

TAIYO YUDEN CO., LTD.

Control No. HD-AG-A191006	(3/7)	Control name General Items
------------------------------	-------	-------------------------------

iv) TAIYO YUDEN does not guarantee functions and performances which depend on the customer's firmware. TAIYO YUDEN does not assume liabilities for defects and failures (i) in functions, performances and quality of the Customer's product incorporating the Products and (ii) which may occur as the Product is incorporated in the Customer's product.

d. Term of Warranty

TAIYO YUDEN warrants only that this Product is in conformity with this Specification for one year after purchase and shall in no event give any other warranty.

e. Items of the Specification

i) Any question arising from the Specification shall be solved in good faith through mutual discussion by the parties hereof.

ii) The language of this "General items" is Japanese and this "General items" shall be interpreted by Japanese Any copies of translation is a reference purpose only and is not binding on both parties hereto.

⑪ Japan Regulatory Information

This module is approved with the specific antenna on this module. Please ensure that your product can also bear a label with the following information. If the product is so small that it is not practicable to place the label, you can also place it in the instruction manual and package. The mark diameter shall be easily legible without using a device such as light microscopes.

It is recommended to include the following sentence in the user manual of your product:

This product installs a radio system which has been approved as a radio station in a low power data communication system based on the Radio Law.

WYSACVLAY : 001-A15398

Region is set to US as default and 12ch(2467MHz) and 13ch(2472MHz) are disabled. Please change the region setting to Japan, if it is needed to use these channels on the final product.

⑫ Canada Regulatory Information

a) This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

WYSACVLAY-XZ

TAIYO YUDEN CO., LTD.

Control No. HD-AG-A191006	(4/7)	Control name General Items
------------------------------	-------	-------------------------------

Le présent appareil est conforme aux CNR Innovation, Sciences et Développement économique

Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- 1) l'appareil ne doit pas produire de brouillage;
- 2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

b) This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment and meets RSS-102 of the ISED radio frequency (RF) Exposure rules. This equipment should be installed and operated keeping the radiator at least 20cm or more away from person's body.

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'ISED. Cet équipement doit être installé et utilisé en gardant une distance de 20 cm ou plus entre le radiateur et le corps humain.

c) Please notify certified ID by either one of the following method on your product.

Spécifiez ID certifiée dans votre produit par une de méthode suivante.

-Contains Transmitter module IC : 4389B-WYSACVLAY

-Contains IC : 4389B-WYSACVLAY

d) Please indicate your product name at any location on the exterior of the host product or product packaging or product literature, which shall be available with the host product or online.

e) This product is certified under the conditions of using channels 1(2412MHz) to 11(2462MHz). Please set the region as CANADA or other which uses channels from 1 to 11. If channels 12(2467MHz) or 13(2472MHz) are used, it may violate the radio regulations.

Ce produit est certifié pour une utilisation sur les canaux 1 (2412MHz) à 11 (2462MHz).

Veuillez choisir la région CANADA ou toute autre région utilisant uniquement ces canaux.

L'utilisation sur les canaux 12 (2467MHz) ou 13 (2472MHz) peut constituer une violation des règlements sur les radiocommunications.

⑬ FCC Regulatory Information

a) This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

b) Please notify certified ID by either one of the following method.

-Contains Transmitter Module FCC ID: RYYWYSACVLAY

-Contains FCC ID: RYYWYSACVLAY

TAIYO YUDEN CO., LTD.

TAIYO YUDEN CO., LTD.

Control No. HD-AG-A191006	(5/7)	Control name General Items
------------------------------	-------	-------------------------------

- c) CAUTION: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- d) This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment should be installed and operated keeping the radiator at least 20cm or more away from person's body.
- e) The antenna used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
- f) This module can change the output power depending on the circumstances by the application software which is developed by module installer. Any end user cannot change the output power.
- g) This product is certified under the condition of using 1(2412MHz) to 11(2462MHz) channels. Region is set to US as default and 1 to 11 channels are used. Please set the region as default (US) and do not change. If 12(2467MHz) or 13(2472MHz) channels are used, it may violate the radio regulations.
- h) Wireless LAN of this module complies with the following standards:
- FCC part 15 Subpart C (2.4GHz band)
- i) This product is FCC approved only as a module. Manufacturers of final devices has a responsibility for the conditions which are not approved as a module. Please carry out the tests of FCC Part 15 Subpart B in case your final device installs this module.
- j) Co-location of this module with other transmitters that operate simultaneously are required to be evaluated using the FCC multi transmitter procedures. When installing this module to your final devices, please make sure to carry out all the necessary evaluations according to the applicable guidelines like follows:
- for RF exposure: KDB 447498, KDB 996369 and any other relevant guidelines
 - for EMC: KDB 996369 D04 and any other relevant guidelines
- k) When you install this module to your final devices, please ensure that your final composite product complies with the applicable FCC rules in reference to a guidance in KDB 996369.
- l) When you install this module to your final devices, please ensure to perform all the required equipment authorization and testing for the technical parameters which are not covered by the module grant (e.g., unintentional radiator Part 15 Subpart B requirements, or transmitters used in the host which are not previously approved as modules).
- m) Antenna List
This module is approved along with the following antennas.
You cannot use any antennas other than the listed ones because it deviates from the accredited conditions

⑭ CE Regulatory Information

a) When your end product installs this module, it is required to proceed additional certification processes before placing on the market in EU member states to make your products fully comply with relative EU standards. Additionally, if your end product is subject to the restrictions of RE Directive, Article 10.10, it is required to display the required information in addition to the certification processes.

Referenced regulations:

- Directive 2014/53/EU
- COMMISSION IMPLEMENTING REGULATION (EU) 2017/1354 of 20 July 2017 specifying how to present the information provided for in Article 10(10) of Directive 2014/53/EU of the European Parliament and of the Council

Restrictions to this product (as of June, 2018):

- Radio LAN operating in 5.15 – 5.35 GHz: restricted to indoor use only

Above regulations are referenced as of the issue date of this document. Since the aforementioned regulations have possibilities to be modified and added in the future, please make sure that you should always confirm the latest regulations.

b) TAIYO YUDEN can provide you the test reports of conducted measurement portion for the radio module. You can utilize the test reports for the certification processes of your end product as it requires radio testing.

⑮ France Regulatory Information

This radio module complies with European radiation exposure limits set forth for an uncontrolled environment and meets the European radio frequency exposure regulations. This radio module should be installed and operated keeping the radiator at least 20cm or more away from human body. When using this radio module within 20cm from human body, it can be required to proceed additional testing or evaluation for Specific Absorption Rate (SAR). When performing the additional SAR test or evaluation, please indicate the SAR value on your user instructions in a legible, intelligible and visible manner if your final device is being put into service and intended to be used in France.

DIGITAL IO FEATURES

Inter-Integrated Circuit (I2C)

The I2C bus interface complies with the common I2C protocol and can operate in standard mode (with data rates up to 100Kb/s), fast mode (with data rate up to 400Kb/s) and high-speed mode (with data rate up to 2Mb/s). Additionally, high-speed mode devices and fast mode devices are downward compatible.

The I2C bus interface unit has the following features:

- I2C serial interfaces consisting of a serial data line (SDL) and serial clock (SCL)
- Three speeds:
 - Standard mode (up to 100Kb/s)
 - Fast mode (up to 400Kb/s)
 - High-speed mode (2Mb/s)
- Master or Slave I2C operation
- 7 or 10 bit addressing
- 16 * 32 bits deep transmit and receive buffers, respectively
- interrupt operation
- DMA function

Synchronous Serial Protocol(SSP)

An SSP port is a synchronous serial controller that can be connected to a variety of external Analog-to-Digital converters (ADC), audio and telecommunication codecs, and many other devices that use serial protocols for data transfer.

The SSP ports are configurable to operate in Master mode (the attached peripheral function as a slave) or Slave mode (the attached peripheral functions as a master).

The SSP ports support serial bit rates from 1Mbps (minimum recommended speed) up to 25 Mbps. A FIFO is provided for Transmit data and a second independent FIFO is provided for Receive data. The two FIFOs are both 16 x 32 bits wide or both are 32 x 16 bits wide. The FIFOs can be loaded or emptied by the Cortex-M4F Processor or by DMA burst transfers.

The SSP port features are as follows:

- Supports Motorola Serial Peripheral Interface (SPI)
- Supports DMA transfer

Universal Asynchronous Receiver Transmitter (UART)

- Separate 64x8 transmit and 64x11 receive FIFO memory buffers to reduce CPU interrupts
- Programmable baud rate generator
- Ability to add or delete standard asynchronous communication bits (start ,stop, and parity) in the serial data
- Flow control
 - RTS(output) controlled by the UART Receive FIFO
 - CTS(input) from modem control UART transmitter
- Separate DMA requests for Transmit and Receive data services

Control No. HD-AE-A191006	(2/10)	Control name Electrical characteristics
------------------------------	--------	--

Analog Digital Converter (ADC)

WYSACVLAY has ADCs with up to 16-bit resolution. ADCs has individually configurable channels, and reference voltage.

- Selectable resolution (12 to 16 bits)
- Single-ended and differential conversions
- ADC gain setting: 0.5x, 1x, 2x
- Selectable reference voltage (Vref)
 - Internal reference 1.2V
 - Internal reference 1.8V
 - External reference (do not exceed 1.8V)

Digital Analog Converter (DAC)

WYSACVLAY has DAC with 10-bit resolution. It includes 2 channels. Each channel can output a single-ended signal or combine both channels to output a differential signal.

- 10-bit resolution
- Flexible waveform generator (sinusoidal, triangle, etc.) at various frequency range
- Selectable output mode: single-ended or differential
- Internal or external reference voltage
- Three selectable output ranges
- Supports event trigger from GPIO

Analog Comparator (ACOMP)

WYSACVLAY has analog comparators which operate over the full range of power supply VIO. ACOMP can select many positive inputs and negative inputs.

- 7 selectable external positive inputs
- 7 selectable external negative inputs
- 2 selectable internal positive inputs
 - DACA output
 - DACB output
- 5 selectable internal negative inputs
 - DACA output
 - DACB output
 - VIO, VIO*0.75, VIO*0.5, VIO*0.25
 - Internal reference 1.2V (Vref_12)
 - GND
- Selectable positive and negative hysteresis between 0 and 70mV with 10mV step
- Comparator output on GPIOs through alternate functionality, output inversion available

WYSACVLAY-XZ

TAIYO YUDEN CO., LTD.

Control No. HD-AE-A191006	(3/10)	Control name Electrical characteristics
------------------------------	--------	--

General Purpose Input Output (GPIO)

WYSACVLAY provides GPIO pins.

- General purpose IO – Configurable IO state as Input high / low or Output high/low
- Be able to accept external signals as interrupt source.
The type of interrupt is programmable with either a rising edge or falling edge.

General Purpose Timers (GPT)

- 4 independent channels with multiple modes
- Edge-aligned and Center-aligned Pulse Width Modulation (PWM) with frequency range from 1KHz to 25MHz
- 1-shot mode to trigger a 1-time output change

--------------------------	-------	-------------------------------------

This specification describes desire and conditions especially for mounting.

Desire/Conditions

(1) Environment conditions for use and storage

1. Store the components in an environment of < **40deg-C/90%RH** if they are in a moisture barrier bag packed by TAIYO YUDEN.
2. Keep the factory ambient conditions at < **30deg-C/60%RH**.
3. Store the components in an environment of < **25±5deg-C/10%RH** after the bag is opened.
(The condition is also applied to a stay in the manufacture process).

(2) Conditions for handling of products

Make sure all of the moisture barrier bags have no holes, cracks or damages at receiving. If an abnormality is found on the bag, its moisture level must be checked in accordance with 2 in (2).

Refer to the label on the bag.

1. All of the surface mounting process (reflow process) must be completed **in 12 months** from the bag sea date.
2. Make sure humidity in the bag is less than **10%RH** immediately after open, using a humidity indicator card sealed with the components.
3. **All** of the surface mounting process (reflow process including rework process) must be completed in **168 hours** after the bag is opened (inclusive of any other processes).
4. If any conditions in (1) or condition 2 and 3 in (2) are not met, bake the components in accordance with the conditions at **125deg-C 24hours**
5. As a rule, baking the components in accordance with conditions 4 in (2) shall be once.
6. Since semi-conductors are inside of the components, they must be free from static electricity while handled.(<100V) Use ESD protective floor mats, wrist straps, ESD protective footwear, air ionizers etc. , if necessary.
7. Please make sure that there are lessen mechanical vibration and shock for this module, and do not drop it.
8. Please recognize pads of back side at surface mount.
9. Washing the module is not recommended. If washing cannot be avoided, please test module functionality and performance after thoroughly drying the module. We cannot be held responsible for any failure due washing the module..
10. Please perform temperature conditions of module at reflow within the limits of the following.
Please give the number of times of reflow as a maximum of 2 times.

Control No. (1/3)	Control name Antenna Application Note
--------------------------	--

1. Recommended module mounting example

*1 Please do not place any metal components in blue shaded space,(*1) such as signal line and metal chassis as possible except for main board while mounting the components in *1 space on the main board is allowed except for no copper plating area. (*2).
 *2 This area is routing prohibited area on the main board. Please do not place copper on any layer. Please remain use of FR-4 dielectric material. The antenna is tuned with the FR-4.
 *3 Characteristics may deteriorate when GND pattern length is less than 30mm. It should be 30 mm or more as possible.
 Even when above mentioned condition is satisfied, communication performance may be significantly deteriorated depending on the structure of the product.

2. Other module mounting examples

WYSACVLAY-XZ

TAIYO YUDEN Co., LTD.

Control No. (2/3)	Control name Antenna Application Note
--------------------------	--

3. Placement of resin or plastic parts

Please do not apply molding over the antenna area of WYSACVLAY.

WYSACVLAY-XZ

TAIYO YUDEN Co., LTD.

Control No. (3/3)	Control name Antenna Application Note
--------------------------	--

4. Directional characteristics example (when mounted on evaluation board)

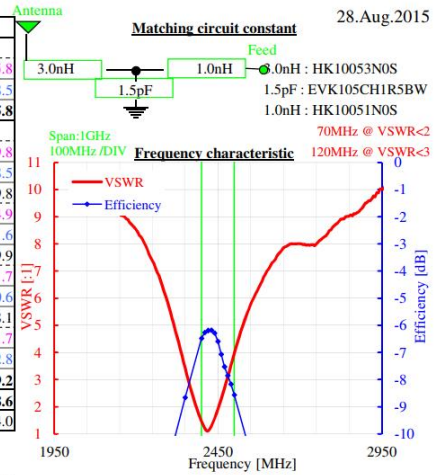

Measured in Satimo Stargate system at TAIYO YUDEN R&D CENTER.

Appearance and coordinates definition

Measurement data of antenna

Frequency [MHz]	@2400	@2450	@2500
Peak gain [dBi]

	1.5	1.9	4.0

*Note: Peak gain(3-plane)=Peak(XY[H],XY[V],YZ[H],YZ[V],ZX[H],ZX[V])
 *Note:The value is average value in 1 round of each inclination direction angle.
 *Note: Average gain(3-plane)=Average(XY[Plus(H,V)],YZ[Plus(H,V)],ZX[Plus(H,V)])

Radiation pattern

20150828M0982

5. About this Application Note

-This Application Note has been prepared as a reference material to help obtaining the antenna performance mounted on **WYSACVLAY-XZ** module better while it is not guaranteed or assured to obtain better communication performance and distance.

-This product "**WYSACVLAY-XZ** module" has been certified and matching circuit constant for antenna within module cannot be changed when ambient environment condition changes. The product must be re-certified when matching circuit constant is changed.

その他、注意事項について (Precautions)

- 弊社製品のご使用に際しては、使用する機器に実装された状態および実際の使用環境での評価および確認を必ず行ってください。
- 当仕様書に記載の製品は、一般的な電子機器【AV 機器、OA 機器、家電製品、事務機器、情報・通信機器（携帯電話、パソコンなど）】で使用されることを意図されています。したがって、生命または身体に直接危害を及ぼす可能性のある機器【輸送用機器（自動車駆動制御装置、列車制御装置、船舶制御装置など）、交通用信号機器、防災機器、医療機器（国際分類クラスⅠ、Ⅱ、Ⅲ）、公共性の高い情報通信機器（電話交換機、電話・無線・放送などの基地局）】などへのご使用をご検討の場合は、必ず事前に弊社までお問い合わせをお願いします。

また、高度の安全性や信頼性が求められる機器【宇宙用機器、航空用機器、医療機器（国際分類クラスⅣ）、原子力用制御機器、海底用機器、軍事用機器など】につきましては、弊社製品をご使用されないようお願いします。

なお、一般的な電子機器においても安全性や信頼性の要求が高い機器、回路などに弊社製品をご使用になる場合には、十分な安全性評価を実施され、必要に応じて設計時に保護回路などを追加していただくことをお勧めします。

弊社の書面による事前の承諾を得ることなく、前述の弊社への問い合わせが必要な機器または弊社が使用を禁止する機器に当仕様書に記載の製品を使用したことによりお客様または第三者に生じた損害に関して、弊社は一切の責任を負いかねますのでご了承ください。
- 当仕様書に記載の情報は、製品の代表的動作・応用を説明するためのものであり、その使用に際して弊社および第三者の知的財産権その他の権利に対する保証または実施権の許諾を行うものではありません。
- 弊社製品の保証範囲につきましては、納入された弊社製品単体の保証に限られ、弊社製品の故障や瑕疵から誘発される損害に関して、弊社は一切の責任を負いかねますのでご了承ください。ただし、取引基本契約書、品質保証協定書など別途書面による契約が締結されている場合は、その内容にしたがって保証させていただきます。
- 当仕様書に記載内容につきましては、弊社の営業所・販売子会社・販売代理店（いわゆる「正規販売チャンネル」）からご購入いただいた弊社製品に適用します。上記以外からご購入いただいた弊社製品に関しては適用対象外とさせていただきますのでご了承ください。
- 輸出注意事項
当仕様書に記載の製品の一部には、輸出の際に「外国為替及び外国貿易法」並びに米国の輸出管理関連法規などの規制をご確認の上、必要な手続きをお取りいただく必要のある製品があります。ご不明な場合には弊社までお問い合わせください。
- Please conduct validation and verification of our products in actual condition of mounting and operating environment before using our products.
- The products listed in this specification are intended for use in general electronic equipment (e.g., AV equipment, OA equipment, home electric appliances, office equipment, information and communication equipment including, without limitation, mobile phone, and PC). Please be sure to contact TAIYO YUDEN for further information before using the products for any equipment which may directly cause loss of human life or bodily injury (e.g., transportation equipment including, without limitation, automotive powertrain control system, train control system, and ship control system, traffic signal equipment, disaster prevention equipment, medical equipment classified as Class I, II or III by IMDRF, highly public information network equipment including, without limitation, telephone exchange, and base station).
Please do not incorporate our products into any equipment requiring high levels of safety and/or reliability (e.g., aerospace equipment, aviation equipment, medical equipment classified as Class IV by IMDRF, nuclear control equipment, undersea equipment, military equipment).
When our products are used even for high safety and/or reliability-required devices or circuits of general electronic equipment, it is strongly recommended to perform a thorough safety evaluation prior to use of our products and to install a protection circuit as necessary.
Please note that unless you obtain prior written consent of TAIYO YUDEN, TAIYO YUDEN shall not be in any way responsible for any damages incurred by you or third parties arising from use of the products listed in this specification for any equipment requiring inquiry to TAIYO YUDEN or prohibited for use by TAIYO YUDEN as described above.
- Information contained in this specification is intended to convey examples of typical performances and/or applications of our products and is not intended to make any warranty with respect to the intellectual property rights or any other related rights of TAIYO YUDEN or any third parties nor grant any license under such rights.
- Please note that the scope of warranty for our products is limited to the delivered our products themselves and TAIYO YUDEN shall not be in any way responsible for any damages resulting from a fault or defect in our products. Notwithstanding the foregoing, if there is a written agreement (e.g., supply and purchase agreement, quality assurance agreement) signed by TAIYO YUDEN and your company, TAIYO YUDEN will warrant our products in accordance with such agreement.

- The contents of this specification are applicable to our products which are purchased from our sales offices or authorized distributors (hereinafter "TAIYO YUDEN's official sales channel"). Please note that the contents of this specification are not applicable to our products purchased from any seller other than TAIYO YUDEN's official sales channel.
- Caution for Export
Some of our products listed in this specification may require specific procedures for export according to "U.S. Export Administration Regulations", "Foreign Exchange and Foreign Trade Control Law" of Japan, and other applicable regulations. Should you have any questions on this matter, please contact our sales staff.
